The effective date for new programs subject to Statewide Academic Program review is implemented in accordance with the Statewide Academic Program Review calendar.
TO: Faculty Senate

This report is prepared and distributed for the following purposes:

1. To report new academic programs, changes in academic programs, discontinuations of academic programs, new courses, permanent changes in courses, and deletions of courses.
2. To notify the initiating colleges, schools, and departments of approval by the University Committee on Curriculum of their requests for new academic programs, changes in academic programs, discontinuations of academic programs, new courses, permanent changes in courses, and deletions of courses. Any items not approved by the Faculty Senate will be reported to the appropriate college and department or school.
3. To provide information to members of the faculty in each department about academic programs and courses in all colleges, departments, and schools of the University.

Reports of the University Committee on Curriculum to the Faculty Senate are organized as follows:

PART I - NEW ACADEMIC PROGRAMS AND PROGRAM CHANGES:

Organized by colleges in alphabetical order. For a given college, academic units are organized in alphabetical order. For a given academic unit, degrees, majors, and specializations are organized in alphabetical order.

PART II - NEW COURSES:

Organized by academic units in alphabetical order; All-University courses appear last. For a given academic unit, courses are organized according to the names associated with course subject codes, in alphabetical order. Courses with the same subject code are in numerical order.

PART III - COURSE CHANGES:

Organized by academic units in alphabetical order; All-University courses appear last. For a given academic unit, courses are organized according to the names associated with course subject codes, in alphabetical order. Courses with the same subject code are in numerical order.

Not all of the above categories, and not all of the colleges and academic units, will necessarily appear in any given Senate Report.

\^One or more of the abbreviations that follow may be included in a course entry:
P: = Prerequisite monitored in SIS
C: = Corequisite
R: = Restriction
RB: = Recommended background
SA: = Semester Alias
TO:   Faculty Senate
FROM:  University Committee on Curriculum
SUBJECT:  New Academic Programs and Program Changes:
New Courses and Course Changes

PART I - NEW ACADEMIC PROGRAMS AND PROGRAM CHANGES

COLLEGE OF AGRICULTURE AND NATURAL RESOURCES

1. Change the requirements for the Minor in Agribusiness Management in the Department of Agricultural, Food, and Resource Economics.
   a. Under the heading Requirements for the Minor in Agribusiness Management replace the entire entry with the following:

   The student must complete 15 credits from the following:
   1. Both of the following courses (6 credits):
      AFRE 100 Decision-making in the Agri-Food System 3
      AFRE 203 Data Analysis for the Agri-Food System 3
   2. One of the following courses (3 credits):
      AFRE 130 Farm Management I 3
      AFRE 232 Commodity Marketing 3
   3. Two of the following courses including at least one at the 300-level or above (6 credits):
      AFRE 130 Farm Management I 3
      AFRE 222 Agribusiness and Food Industry Sales 3
      AFRE 232 Commodity Marketing 3
      AFRE 300 Public Policy Issues in the Agri-Food System 3
      AFRE 303 Managerial Economics 3
      AFRE 322 Organization of the Agri-Food Systems 3
      AFRE 327 Global Agri-Food Industries and Markets 3
      AFRE 330 Farm Management II 3
      AFRE 432 Commodity Marketing II 3
      AFRE 435 Financial Management in the Agri-Food System 3
      AFRE 490 Independent Study in Agricultural Food and Resource Economics 3

   Agricultural Food and Resource Economics 130 or 232 may be used to fulfill requirement 3. if not used to fulfill requirement 2.

   Effective Fall 2021.

2. Change the requirements for the Bachelor of Science degree in Agribusiness Management in the Department of Agricultural, Food, and Resource Economics.
   a. Under the heading Requirements for the Bachelor of Science Degree in Agribusiness Management replace the entire entry with the following:

   1. The University requirements for bachelor’s degrees as described in the Undergraduate Education section of this catalog; 120 credits, including general elective credits, are required for the Bachelor of Science degree in Agribusiness Management.

   The University’s Tier II Writing Requirement for the Agribusiness Management major is met by completing Agricultural Food and Resource Economics 445 or 465. Those courses are referenced in item 3. below.
The completion of the Agribusiness Management mathematics requirement may also satisfy the College of Agriculture and Natural Resources and the University mathematics requirement.

2. The requirements of the College of Agriculture and Natural Resources for the Bachelor of Science degree.

Certain courses referenced in requirement 3. below may be counted toward College requirements as appropriate.

Students must achieve a grade of at least 2.0 or higher in each AFRE course referenced in items 3. a. and in courses taken to fulfill requirements 3. b., 3. c. and 3.d.

3. The following requirements for the major:

   a. All of the following courses (38 credits):
      - AFRE 100 Decision-making in the Agri-Food System
      - AFRE 130 Farm Management I
      - AFRE 203 Data Analysis for the Agri-Food System
      - AFRE 206 World Food, Population and Poverty
      - AFRE 210 Professional Seminar in Agricultural, Food, and Resource Economics
      - AFRE 222 Agribusiness and Food Industry Sales (W)
      - AFRE 232 Commodity Marketing I
      - AFRE 240 Food Product Marketing
      - AFRE 265 Ecological Economics
      - AFRE 410 Advanced Professional Seminar in Agricultural Food and Resource Economics
      - AFRE 435 Financial Management in the Agri-Food System
      - EC 201 Introduction to Microeconomics
      - EC 202 Introduction to Macroeconomics
      - MTH 124 Survey of Calculus I

   b. Three of the following courses (9 credits):
      - AFRE 224 Information and Market Intelligence in the Agri-Food Industry
      - AFRE 300 Public Policy Issues in the Agri-Food System
      - AFRE 315 Labor and Personnel Management in the Agri-Food System
      - AFRE 322 Organization of the Agri-Food Systems
      - AFRE 327 Global Agri-Food Industries and Markets
      - AFRE 330 Farm Management II
      - AFRE 432 Commodity Marketing II
      - AFRE 445 Strategic Management for Food and Agribusiness Firms (W)
      - AFRE 465 Corporate Environmental Management (W)
      - AFRE 490 Independent Study in Agricultural Food and Resource Economics
      - AFRE 493 Professional Internship in Agricultural Food and Resource Economics

A study abroad or independent study experience may also fulfill part of this requirement through enrollment in AFRE 490 with approval by the department.

Agricultural Food and Resource Economics 300, 330 or 432 may be used to fulfill requirement 3.b. if not used to fulfill requirement 3.d.

   c. One of the following courses (3 credits):
      - AFRE 445 Strategic Management for Food and Agribusiness Firms (W)
      - AFRE 465 Corporate Environmental Management (W)
d. One of the following courses (3 credits):
  AFRE 300 Public Policy Issues in Agri-Food System 3
  AFRE 330 Farm Management II 3
  AFRE 432 Commodity Marketing ii 3

e. One of the following courses (3 or 4 credits):
  AFRE 303 Managerial Economics 3
  EC 301 Intermediate Microeconomics 3

f. One of the following courses (3 or 4 credits):
  STT 200 Statistical Methods 3
  STT 201 Statistical Methods 4
  STT 315 Introduction to Probability and Statistics for Business 3

g. One of the following courses (3 credits):
  SCM 303 Introduction to Supply Chain Management 3
  SCM 304 Survey of Supply Chain Management 3

h. Complete 6 credits in sciences related to agricultural production and processing, as approved by the department. It is recommended that these credits be from the same discipline.

Effective Fall 2021.

3. Change the requirements for the Minor in Environmental Economics in the Department of Agricultural, Food, and Resource Economics.

   a. Under the heading Requirements for the Minor in Environmental Economics replace the entire entry with the following:

      The student must complete 15 credits from the following:
      1. All of the following courses (9 credits):
         AFRE 203 Data Analysis for the Agri-Food System 3
         AFRE 265 Ecological Economics 3
         AFRE 360 Environmental Economics 3
      2. One of the following courses (3 credits):
         AFRE 460 Natural Resource Economics 3
         AFRE 465 Corporate Environmental Management (W) 3
      3. One of the following courses (3 or 4 credits):
         AFRE 303 Managerial Economics 3
         AFRE 460 Natural Resource Economics 3
         AFRE 465 Corporate Environmental Management (W) 3
         CSUS 354 Water Resources Management 3
         CSUS 465 Environmental and Natural Resource Law 3
         EC 450 Economics of Environmental Policy (W) 3
         FOR 419 Applications of Geographic Information Systems 4

      Agricultural Food and Resource Economics 460 or 465 may be used to fulfill requirement 3. If not used to satisfy requirement 2.

      Effective Fall 2021.

4. Change the requirements for the Bachelor of Science degree in Environmental Economics and Management in the Department of Agricultural, Food, and Resource Economics.

   a. Under the heading Requirements for the Bachelor of Science Degree in Environmental Economics and Management replace the entire entry with the following:

      1. The University requirements for bachelor's degrees as described in the Undergraduate Education section of this catalog; 120 credits, including general elective credits, are required for the Bachelor of Science degree in Environmental Economics and Management.
The University's Tier II Writing Requirement for the Environmental Economics and Management major is met by completing Agricultural Food and Resource Economics 465. This course is referenced in item 3. below.

The completion of the Environmental Economics and Management mathematics requirement may also satisfy the College of Agriculture and Natural Resources and the University mathematics requirement.

2. The requirements of the College of Agriculture and Natural Resources for the Bachelor of Science degree.

Certain courses referenced in requirement 3. below may be counted toward College requirements as appropriate.

Students must achieve a grade of at least 2.0 or higher in each AFRE course referenced in items 3. a. and in courses taken to fulfill requirements 3. b. and 3. c.

3. The following requirements for the major:

a. All of the following courses (38 credits):

<table>

A study abroad or independent study experience may also fulfill part of this requirement through enrollment in AFRE 490 with approval by the department.
Agricultural Food and Resource Economics 435 or 445 may be used to fulfill requirement 3.b if not used to fulfill requirement 3.c.

c. One of the following courses (3 credits):
   AFRE 435 Financial Management in the Agri-Food Systems
   AFRE 445 Strategic Management for Food and Agribusiness Firms (W)

d. One of the following courses (3 credits):
   ACC 201 Principles of Financial Accounting
   ACC 230 Survey of Accounting Concepts
   AFRE 130 Farm Management I
   FI 320 Introduction to Finance

e. One of the following courses (3 or 4 credits):
   STT 200 Statistical Methods
   STT 201 Statistical Methods
   STT 315 Introduction to Probability and Statistics for Business

f. One of the following courses (3 credits):
   AFRE 303 Managerial Economics
   EC 301 Intermediate Microeconomics

g. One of the following courses (3 credits):
   SCM 303 Introduction to Supply Chain Management
   SCM 304 Survey of Supply Chain Management

h. Complete 6 credits in sciences related to sustainability and the environment, as approved by the department. It is recommended that these credits be from the same discipline.

Effective Fall 2021.

5. Change the requirements for the Minor in Food Industry Management in the Department of Agricultural, Food, and Resource Economics.

a. Under the heading Requirements for the Minor in Food Industry Management replace the entire entry with the following:

   The student must complete 15 credits from the following:
   1. All of the following courses (9 credits):
      AFRE 100 Decision-making in the Agri-Food System
      AFRE 203 Data Analysis for the Agri-Food System
      AFRE 240 Food Product Marketing
   2. One of the following courses (3 credits):
      AFRE 340 Food Marketing Research and Analytics
      AFRE 440 Food Marketing Management
   3. One of the following courses (3 credits):
      AFRE 222 Agribusiness and Food Industry Sales
      AFRE 300 Public Policy Issues in the Agri-Food System
      AFRE 303 Managerial Economics
      AFRE 322 Organization of the Agri-Food Systems
      AFRE 327 Global Agri-Food Industries and Markets
      AFRE 340 Food Marketing Research and Analytics
      AFRE 440 Food Marketing Management
      AFRE 445 Strategic Management for Food and Agribusiness Firms (W)
      AFRE 490 Independent study in Agricultural Food and Resource Economics

   Agricultural Food and Resource Economics 340 and 440 may be used to fulfill requirement 3. if not used to fulfill requirement 2.

Effective Fall 2021.
6. Change the requirements for the Bachelor of Science degree in Food Industry Management in the Department of Agricultural, Food, and Resource Economics.

a. Under the heading Requirements for the Bachelor of Science Degree in Food Industry Management replace the entire entry with the following:

AFRE 493 Professional Internship in Agricultural Food and Resource Economics 3

A study abroad or independent study experience may also fulfill part of this requirement through enrollment in AFRE 490 with approval by the department.

Agricultural Food and Resource Economics 435 or 465 may be used to fulfill requirement 3.b. if not used to fulfill requirement 3.c.

c. One of the following courses (3 credits):
   AFRE 435 Financial Management in the Agri-Food Systems 3
   AFRE 465 Corporate Environmental Management (W) 3

d. One of the following courses (3 credits):
   ACC 201 Principles of financial Accounting 3
   ACC 230 Survey of Accounting Concepts 3
   AFRE 130 Farm Management I 3
   FI 320 Introduction to Finance 3

e. One of the following courses (3 or 4 credits):
   STT 200 Statistical Methods 3
   STT 201 Statistical Methods 4
   STT 315 Introduction to Probability and Statistics for Business 3

f. One of the following courses (3 credits):
   AFRE 303 Managerial Economics 3
   EC 301 Intermediate Microeconomics 3

g. One of the following courses (3 credits):
   SCM 303 Introduction to Supply Chain Management 3
   SCM 304 Survey of Supply Chain Management 3

h. Complete 6 credits in sciences related to food production and processing, as approved by the department. It is recommended that these credits be from the same discipline.

Effective Fall 2021.

7. Change the requirements for the Agricultural Technology Certificate in Dairy Management in the Institute of Agricultural Technology.

   a. Under the heading Requirements for Dairy Management make the following changes:

      (1) In item 1., change the total credits from '32' to '35'.

      (2) In item 1., delete the following courses:

         ANS 132 Dairy Farm Management Seminar 1
         ANS 215 Growth, Health and Lactation in Dairy Cattle 2
         ANS 230 Dairy Herd Management 3
         ANS 232 Introductory Dairy Cattle Management 3

      Add the following courses:

         ANS 132 Dairy Farm Management Seminar 2
         ANS 134 Dairy Production I 3
         ANS 200C Dairy Cattle Genetics and Evaluation 2
         ANS 234 Dairy Production II 3
         ANS 235L Dairy Herd Reproduction Laboratory 2

      (3) In item 2., change the total credits from '16' to '15' and delete the following course:

         ANS 110 Introductory Animal Agriculture 4

      Add the following courses:
PART I – NEW ACADEMIC PROGRAMS AND PROGRAM CHANGES

ANS 110 Introductory Animal Agriculture 3
CSS 101L Introduction to Crop Science Laboratory 1

Effective Fall 2021.

8. Change the requirements for the Bachelor of Science degree in Animal Science in the Department of Animal Science.

The concentrations in the Bachelor of Science degree in Animal Science are noted on the student’s academic record when the requirements for the degree have been completed.

a. Under the heading Requirements for the Bachelor of Science Degree in Animal Science make the following changes:

(1) In item 1., replace paragraph two with the following:

The University's Tier II writing requirement for the Animal Science major is met by completing one of the following courses: Animal Science 301, 313, 314, 409, or 435. Those courses are referenced in item 3. below.

(2) In item 3. d. delete the following course:

ANS 232 Introductory Dairy Cattle Management 3

Add the following course:

ANS 134 Dairy Production I 3
ANS 234 Dairy Production II 3

(3) In item 3. f. delete the following course:

ANS 432 Advanced Dairy Cattle Management 3

Add the following course:

ANS 334 Dairy Management I 3

(4) In item 3. h. make the following changes:

(a) Change the total credits for concentrations from '23 to 33' to '20 to 40'.

(b) Change the Animal Industry concentration to the following:

Animal Industry (20 to 24 credits):
1. The following course (3 credits):
   ANS 201 Animal Products 3
   ANS 201 may not be used to fulfill requirement 3. d. above.
2. One of the following courses (2 or 3 credits):
   AFRE 203 Data Analysis for the Agri-Food System 3
   CSS 110 Computer Applications in Agronomy 2
3. One of the following courses (3 credits):
   AFRE 100 Decision-making in the Agri-Food System 3
   AFRE 130 Farm Management I 3
4. One of the following advanced management courses (3 credits):
   ANS 422 Advanced Beef Cattle Feedlot Management 3
   ANS 434 Dairy Management II 3
   ANS 442 Advanced Horse Management 3
   ANS 472 Advanced Swine Management 3
   ANS 482 Advanced Companion Animal Management 3
   FSC 432 Food Processing: Dairy Foods 3
   FSC 433 Food Processing: Muscle Foods 3

Courses used to fulfill this requirement may not be used to
fulfill requirement 3. f. above.

5. A minimum of 9 credits from the following courses:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>ANS 211</td>
<td>Animal and Product Evaluation</td>
<td>3</td>
</tr>
<tr>
<td>ANS 305</td>
<td>Applied Animal Behavior</td>
<td>3</td>
</tr>
<tr>
<td>ANS 305L</td>
<td>Applied Animal Behavior Laboratory</td>
<td>1</td>
</tr>
<tr>
<td>ANS 307</td>
<td>Animal Reproduction</td>
<td>3</td>
</tr>
<tr>
<td>ANS 309</td>
<td>Animal Health and Disease Management</td>
<td>3</td>
</tr>
<tr>
<td>ANS 313</td>
<td>Principles of Animal Feeding and Nutrition (W)</td>
<td>4</td>
</tr>
<tr>
<td>ANS 314</td>
<td>Genetic Improvement of Domestic Animals (W)</td>
<td>4</td>
</tr>
<tr>
<td>ANS 315</td>
<td>Anatomy and Physiology of Farm Animals</td>
<td>4</td>
</tr>
<tr>
<td>ANS 404</td>
<td>Introduction to Quantitative Genetics</td>
<td>3</td>
</tr>
<tr>
<td>ANS 407</td>
<td>Food and Animal Toxicology</td>
<td>3</td>
</tr>
<tr>
<td>ANS 409</td>
<td>Problems, Controversies and Advancements in Reproduction (W)</td>
<td>4</td>
</tr>
<tr>
<td>ANS 418</td>
<td>Animal Agriculture and the Environment</td>
<td>3</td>
</tr>
<tr>
<td>ANS 425</td>
<td>Animal Biotechnology</td>
<td>3</td>
</tr>
<tr>
<td>ANS 427</td>
<td>Environmental Toxicology and Society</td>
<td>3</td>
</tr>
<tr>
<td>ANS 435</td>
<td>Mammary Physiology (W)</td>
<td>4</td>

<td>4</td>
</tr>
<tr>
<td>ANS 455</td>
<td>Avian Physiology</td>
<td>4</td>
</tr>
<tr>
<td>ANS 483</td>
<td>Ruminant Nutrition</td>
<td>3</td>
</tr>
</tbody>
</table>

Courses used to fulfill this requirement may not be used to fulfill requirement 3. e. above.

(c) In item 3. h. under the Animal Biology and Preveterinary add the following courses under item 4.:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>ANS 305</td>
<td>Applied Animal Behavior</td>
<td>3</td>
</tr>
<tr>
<td>ANS 305L</td>
<td>Applied Animal Behavior Laboratory</td>
<td>1</td>
</tr>
<tr>
<td>ANS 307</td>
<td>Animal Reproduction</td>
<td>3</td>
</tr>
<tr>
<td>ANS 309</td>
<td>Animal Health and Disease Management</td>
<td>3</td>
</tr>
<tr>
<td>ANS 313</td>
<td>Principles of Animal Feeding and Nutrition (W)</td>
<td>4</td>
</tr>
<tr>
<td>ANS 314</td>
<td>Genetic Improvement of Domestic Animals (W)</td>
<td>4</td>
</tr>
<tr>
<td>ANS 315</td>
<td>Anatomy and Physiology of Farm Animals</td>
<td>4</td>
</tr>
</tbody>
</table>

Add the following note:

Courses used to fulfill this requirement may not be used to fulfill requirement 3. e. above.

(d) In the Companion and Exotic Animal Biology concentration delete the note in item 1. and add the following course in item 3.:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>IBIO 368</td>
<td>Zoo Animal Biology and Conservation</td>
<td>3</td>
</tr>
</tbody>
</table>

(e) Add the following concentration:

**Dairy Industry** (38 to 40 credits):

1. All of the following courses (24 credits):

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Credits</th>
</tr>

PART I – NEW ACADEMIC PROGRAMS AND PROGRAM CHANGES

3. Choose a minimum of 6 credits from the following courses:

- ANS 233 Dairy Feed Management 3
- ANS 235 Dairy Herd Reproduction 2
- ANS 235L Dairy Herd Reproduction Laboratory 2
- ANS 238 Dairy Cattle Health Management 3

Effective Fall 2021.

9. Change the requirements for the Master of Science degree in Animal Science in the Department of Animal Science. The University Committee on Graduate Studies (UCGS) approved this request at its meeting on September 14, 2020.

a. Under the heading Admission add the following statement:

Applicants will be evaluated for admission based on academic record, research and work experience, professional goals, and letters of reference. All applicants are required to submit scores from the General Test of the Graduate Record Examination.

b. Under the heading Requirements for the Master of Science Degree in Animal Science replace the entire entry with the following:

The student may elect either Plan A (with thesis) or Plan B (without thesis). A minimum of 30 credits is required for the degree under either Plan A or Plan B. The student's major professor and guidance committee must approve the student's program of study, including thesis research for students under Plan A.

Requirements for Both Plan A and Plan B
1. Complete a set of courses related to one of the areas of specialization within the field of animal science, as approved by the major professor and guidance committee.

Additional Requirements for Plan A
1. Complete 6 to 10 credits in ANS 899 Master's Thesis Research.
2. Complete a written thesis and present it publicly at a departmental seminar prior to graduation.
3. Pass a final oral examination in defense of the thesis before the guidance committee that occurs immediately after the public seminar at which the thesis is presented.

Additional Requirements for Plan B
1. Complete no more than 6 credits in ANS 898 Master's Research.
2. Complete a project and present it publicly at a departmental seminar prior to graduation.
3. Pass a final examination or evaluation before the guidance committee that occurs immediately after the public seminar at which the project is presented.

Effective Fall 2021.
10. Change the requirements for Bachelor of Science degree in Sustainable Parks, Recreation and Tourism in the Department of Community Sustainability.

   a. Under the heading Requirements for the Bachelor of Science Degree in Sustainable Parks, Recreation and Tourism make the following changes:

   (1) In item 3. d. delete the following course:

   FOR 412 Wildland Fire 2

   Add the following course:

   FOR 215 Introduction to Wildland Fire 2

Effective Fall 2021.

11. Change the requirements for the Master of Science degree in Forestry in the Department of Forestry. The University Committee on Graduate Studies (UCGS) approved this request at its September 14, 2020 meeting.

   a. Under the heading Master of Science replace the entire entry with the following:

   In addition to meeting the requirements of the university and of the College of Agriculture and Natural Resources, students must meet the requirements specified below.

Requirements for the Master of Science Degree in Forestry

The master’s degree program in forestry is available under either Plan A (with thesis) or Plan B (without thesis). A total of 30 credits is required for the degree under Plan A or Plan B. The student’s program of study must be approved by either their major professor or guidance committee.

Requirements for Plan A

1. Complete the following course (2 credits):
   FOR 802 Forest Science Research 2

2. Complete a program of study approved by the major professor and guidance committee to meet the student’s educational and career goals.

3. Complete at least 6 credits and no more than 10 credits in FOR 899 Master’s Thesis Research.

4. Pass an oral examination, including a public presentation, in defense of the thesis, administered by the student's guidance committee. One re-examination may be scheduled at the discretion of the guidance committee. The final oral examination must be passed within five calendar years from the date of enrollment in the first course included for degree certification.

Requirements for Plan B

1. Complete a program of study approved by the major professor and guidance committee to meet the student’s educational and career goals.

2. Complete a non-thesis capstone project, practicum or other professional development experience of at least 1 credit and no more than 6 credits through enrollment in FOR 898 Master’s Professional Project. Upon completion of the project, a report must be completed and submitted to the student’s guidance committee.

3. Pass a final oral examination, including a public presentation, in defense of the professional project, administered by the student’s guidance committee. One re-examination may be scheduled at the discretion of the guidance committee. The final oral examination must be passed within five calendar years from the date of enrollment in the first course included for degree certification.

Effective Fall 2021.
12. Change the requirements for the Doctor of Philosophy degree in Forestry in the Department of Forestry. The University Committee on Graduate Studies (UCGS) approved this request at its September 14, 2020 meeting.

a. Under the heading Doctor of Philosophy replace the entire entry with the following:

The Doctor of Philosophy degree in Forestry provides advanced education to prepare future scholars and leaders who advance knowledge about forested ecosystems and help resolve issues that challenge the provision of forest ecosystem services at local, regional and global scales. The program is research-intensive and students will product original applied or fundamental research of quality comparable to a two to four peer-reviewed publications in a scientific journal.

In addition to meeting the requirements of the university and of the College of Agriculture and Natural Resources, students must meet the requirements specified below.

Requirements for the Doctor of Philosophy Degree in Forestry

1. Complete the following course (2 credits):
   FOR 802 Forest Science Research

2. Complete a program of study approved by the major professor and guidance committee to meet the student’s educational and career goals.

3. Complete at least 24 credits and no more than 36 credits in FOR 999 Doctoral Dissertation Research.

4. No more than 1/4th of the program of study can be from transfer credits. Graduate credits may be transferred from other postsecondary accredited institutions of comparable academic quality if they are appropriate to a student’s program and were completed within the time limits approved for the earning of the degree at MSU.

5. Comprehensive examinations must be completed within five years from the time when a student begins the first class at MSU that appears on the student’s doctoral program of study.

6. Successfully pass the final oral examination in defense of the dissertation.

Effective Fall 2021.

13. Change the requirements for the Doctor of Philosophy degree in Packaging in the School of Packaging. The University Committee on Graduate Studies (UCGS) approved this request at its September 14, 2020 meeting.

a. Under the heading Admission in paragraph two, replace items 1. and 2. with the following:

   1. Completed a master's degree program in packaging, or in a related science or engineering area, for which a thesis was required, or a completed bachelor's degree in packaging or related science or engineering area with significant intensive research experience such as having peer-reviewed journal publications as the main author, or conducting several semesters of research work.

   2. A grade–point average of at least 3.40 for the bachelor’s or master's degree program.

b. Under the heading Requirements for the Doctor of Philosophy Degree in Packaging replace the entire entry with the following:

The student must:

1. One of the following courses (3 credits):
   PKG 805 Advanced Packaging Dynamics
   PKG 815 Permeability Shelf Life

2. Both of the following courses (7 credits):
   PKG 825 Polymeric Packaging Materials
   PKG 860 Research Methods

3. An additional 3 credits of 800-level Packaging courses excluding PKG 890.

5. Pass both a written and an oral comprehensive examination.

6. Complete a dissertation in one of the following areas of packaging: material
science applications in packaging, food packaging, healthcare packaging, mass
transport applications, or the dynamics and physical distribution aspects or
human factors in packaging.

7. Successfully defend the dissertation.

Effective Fall 2021.

COLLEGE OF COMMUNICATION ARTS AND SCIENCES

1. Change the requirements for the Bachelor of Arts degree in Journalism in the School of Journalism.

The concentrations in the Bachelor of Arts degree in Journalism are noted on the student's academic record when the requirements for the degree have been completed.

a. Under the heading Requirements for the Bachelor of Arts Degree in Journalism make the following changes:

(1) Delete the Journalism Education concentration.
(2) In the note following the concentrations, add the Media Photography minor to the list of minors available to choose from.

(1) Replace item d. (2) with the following:

Civics: One of the following courses (3 credits):
- PLS 313 American Public Policy 3
- PLS 320 Judicial Politics 3
- PLS 324 Congress 3
- PLS 325 The Presidency 3
- PLS 334 Campaigns and Elections 3

Effective Fall 2021.

COLLEGE OF ENGINEERING

1. Change the requirements for the Minor in Energy in the College of Engineering.

a. Under the heading Requirements for the Minor in Energy make the following changes:

(1) In item 2., add the following course:

ECE 320 Energy Conversion and Power Electronics 3

(2) In item 3., delete the following course:

ECE 202 Circuits and Systems II 3

Add the following course:

ECE 302 Electronic Circuits 3

(3) In item 4., add the following courses:

CE 473 Smart and Sustainable Building Design and Operations 3
ENF 472 Life Cycle Assessment of Energy 3

(4) In item 5., delete the following course:
Add the following courses:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Credits</th>
</tr>

</table>

Effective Fall 2021.

2. Change the requirements in the Master of Science degree in Materials Science and Engineering in the Department of Chemical Engineering and Materials Science. The University Committee on Graduate Studies (UCGS) approved this request at its September 14, 2020 meeting.

a. Under the heading Admission add the following text:

Students entering the program with a bachelor degree in a field other than Materials Science and Engineering may be required to complete additional collateral courses to fulfill deficiencies in their academic background. Collateral course work does not count towards the requirements for the degree program.

b. Under the heading Requirements for the Master of Science Degree in Materials Science and Engineering replace the entire entry with the following:

The students must complete a total of 30 credits for the degree under Plan A (with thesis) or Plan B (without thesis), and meet the requirements specified below.

Requirements for Both Plan A and Plan B:

<table>
<thead>
<tr>
<th>Requirements for Both Plan A and Plan B:</th>
<th>CREDITS</th>
</tr>
</thead>
<tbody>
<tr>
<td>1. Core Courses. All of the following courses (12 credits):</td>
<td></td>
</tr>
<tr>
<td>MSE 851 Thermodynamics of Solids</td>
<td>3</td>
</tr>
<tr>
<td>MSE 855 Advanced Rate Theory and Diffusion</td>
<td>3</td>
</tr>
<tr>
<td>MSE 860 Advanced Theory of Solids</td>
<td>3</td>
</tr>
<tr>
<td>MSE 870 Electron Microscopy in Materials Science</td>
<td>3</td>
</tr>
<tr>
<td>Or</td>
<td></td>
</tr>
<tr>
<td>MSE 881 Advanced Spectroscopy and Diffraction Analysis of Materials</td>
<td>3</td>
</tr>
</tbody>
</table>

Additional Requirements for Plan A

1. Complete the following course:
   CHE 892 Seminar 2
2. Complete 6 credits of MSE 899 Master’s Thesis Research
3. One course at the 400-level or above in mathematics or statistics as approved by the student's academic advisor.
4. Submit a written thesis and oral presentation, administered by the student's advisory committee.
5. A minimum of 16 credits must be at the 800-level or above as approved by the student's academic advisor.

Additional Requirements for Plan B

1. Complete the following course:
   CHE 892 Seminar
2. One course at the 400-level or above in mathematics or statistics as approved by the student's academic advisor.
3. At least 6 to 9 credits completed in a coordinated technical minor as approved by the student's academic advisor.
4. Additional elective credits as approved by the student's academic advisor.
5. A minimum of 18 credits at the 800-level or above as approved by the student's academic advisor.
6. Pass a final examination or evaluation.

Effective Fall 2021.

3. Change the requirements in the Master of Science degree in Civil Engineering in the Department of Civil and Environmental Engineering. The University Committee on Graduate Studies (UCGS) approved this request at its September 14, 2020 meeting.

   a. Under the heading Requirements for the Master of Science Degree in Civil Engineering replace the entire entry with the following:

      The student must complete a total of 30 credits for the degree under either Plan A (with thesis) or Plan B (without thesis).

      A student under Plan A must complete at least 20 credits at the 800-level or above, including 4 credits of Civil Engineering 899, but no more than 6 credits. Up to 10 credits of 400-level course work may be counted toward the degree. The student's program must be approved by the guidance committee.

      A student under Plan B must complete at least 18 credits at the 800-level or above, including the completion of a research or design project through enrollment of at least 1 credit, but no more than 4 credits in Civil Engineering 892. Up to 12 credits of 400-level course work may be counted toward the degree. The student's program must be approved by the guidance committee.

Effective Fall 2021.

4. Change the requirements in the Master of Science degree in Environmental Engineering in the Department of Civil and Environmental Engineering. The University Committee on Graduate Studies (UCGS) approved this request at its September 14, 2020 meeting.

   a. Under the heading Requirements for the Master of Science Degree in Environmental Engineering replace the entire entry with the following:

      The student must complete a total of 30 credits for the degree under either Plan A (with thesis) or Plan B (without thesis).

      A student under Plan A must complete at least 20 credits at the 800-level or above, including 4 credits of Environmental Engineering 899. Up to 10 credits of 400-level course work may be counted toward the degree. The student's program must be approved by the guidance committee.
A student under Plan B must complete at least 18 credits at the 800-level or above, including the completion of a research or design project through enrollment of at least 1 credit, but no more than 4 credits in Environmental Engineering 892. Up to 12 credits of 400-level course work may be counted toward the degree. The student's program must be approved by the guidance committee.

Effective Fall 2021.

**COLLEGE OF HUMAN MEDICINE**

1. Change the requirements for the Master of Public Health degree in Public Health in the College of Human Medicine. The University Committee on Graduate Studies (UCGS) approved this request at its September 14, 2020 meeting.

   a. Under the heading Admission make the following changes:

      (1) Renumber items 1. and 2. to items 2. and 3. and add the following item 1.:

         1. submit an Application to Graduate Study at Michigan State University with application fee.

      (2) Delete the original item 3.

      (3) Replace items 4., 5., and 6. with the following:

         4. submit three letters of recommendation from professional or academic references.

         5. submit a personal statement describing interest in and understanding of public health, including professional career goals, and how their experiences, personal and professional, have influenced that interest;

         6. submit official transcripts from all post-secondary institutions attended;

      (4) Add the following item 8.:

         8. submit official English language proficiency test scores to institution code 1465 (TOEFL, IELTS, MELAB) if applying as an international applicant.

      (5) Replace the second paragraph with the following:

         The MPH Admission Committee integrates the academic information, letters of recommendation, and personal statement to make the final admissions decision based on the following considerations:

      (6) Delete paragraph three.

   b. Under the heading Requirements for the Master of Public Health Degree in Public Health make the following changes:

      (1) Delete item 5.

Effective Fall 2021.
PART I – NEW ACADEMIC PROGRAMS AND PROGRAM CHANGES

JAMES MADISON COLLEGE

1. Change the requirements for the Bachelor of Arts degree in James Madison College [Comparative Cultures and Politics Major] in James Madison College. The Teacher Education Council (TEC) approved this request at its meeting in September, 2020.

   a. Under the heading Comparative Cultures and Politics replace item 1. d. with the following:

   Complete 6 to 9 credits from two or three courses at the 300-level or above, selected in consultation with an academic advisor. All credits must focus on a particular region of the world or social group. Students may also propose their own thematically focused related area for advisor approval.

   Effective Fall 2021.

COLLEGE OF NATURAL SCIENCE

1. Change the name of the Bachelor of Science degree in Biological Science-Interdepartmental to Biological Science Secondary Education in the College of Natural Science. The Teacher Education Council (TEC) approved this request at its September 2020 meeting.

   Students admitted to the major prior to Fall 2021 will be awarded a Bachelor of Science Degree in Biological Science-Interdepartmental.

   Students admitted to the major Fall 2021 and forward will be awarded a Bachelor of Science Degree in Biological Science Secondary Education.

   Effective Fall 2021.

2. Change the name of the Bachelor of Science degree in Physical Science-Interdepartmental to Physical Science Secondary Education in the College of Natural Science. The Teacher Education Council (TEC) approved this request at its September 2020 meeting.

   Students admitted to the major prior to Fall 2021 will be awarded a Bachelor of Science Degree in Physical Science-Interdepartmental.

   Students admitted to the major Fall 2021 and forward will be awarded a Bachelor of Science Degree in Physical Science Secondary Education.

   Effective Fall 2021.

3. Change the requirements for the Bachelor of Science degree in Biomedical Laboratory Science in the Biomedical Laboratory Diagnostics Program.

   a. Under the heading Requirements for the Bachelor of Science Degree in Biomedical Laboratory Science make the following changes:

      (1) In item 3.c. under the Clinical Chemistry concentration, add the following course in item (2):

      PHM 321 Common Drugs 3

      (2) In item 3.c. under the Immunology concentration, change the total credits from ‘10 or 11’ to ‘9 or 10’ and replace item (1) with the following:

      The following course (1 credit):
      BLD 452L Immunodiagnostics Laboratory 1

      (3) In item 3.c. under the Medical Microbiology concentration, under item (2), delete the following courses:

      EPI 290 History of Scientific Reasoning and Critical Thinking in Global Public Health and Epidemiology 3
      IBIO 316 General Parasitology 3
(4) In item 3.c. under the **Hematology and Hemostasis** concentration, change the total credits from '9 to 11' to '7 to 9' and delete the following courses from item (1):

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>BLD 435L</td>
<td>Immunohematology Laboratory</td>
<td>1</td>
</tr>
<tr>
<td>BLD 452L</td>
<td>Immunodiagnostics Laboratory</td>
<td>1</td>
</tr>
</tbody>
</table>

In item (3) delete the following course:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>BLD 835</td>
<td>Hemostasis, Thrombosis and Effective Resource Management</td>
<td>3</td>
</tr>
</tbody>
</table>

Add the following course:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>IBIO 341</td>
<td>Fundamental Genetics</td>
<td>4</td>
</tr>
</tbody>
</table>

Effective Fall 2021.

4. Change the requirements for the **Bachelor of Arts** degree in **Chemistry** in the Department of Chemistry. The Teacher Education Council (TEC) approved this request at its September 14, 2020 meeting.

a. Under the heading **Requirements for the Bachelor of Arts Degree in Chemistry** make the following changes:

(1) In item 3. a. make the following changes:

(a) Change the total credits from '22 to 27' to '21 to 27'.

(b) In item (1) delete the following course:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>ZOL 141</td>
<td>Introductory Human Genetics</td>
<td>3</td>
</tr>
</tbody>
</table>

Add the following courses:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>IBIO 150</td>
<td>Integrating Biology: From DNA to Populations</td>
<td>3</td>
</tr>
<tr>
<td>MMG 141</td>
<td>Introductory Human Genetics</td>
<td>3</td>
</tr>
</tbody>
</table>

(c) In item (4) add the following:

(d) Replace item (5) with the following:

One of the following courses (3 or 4 credits):

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>BMB 401</td>
<td>Comprehensive Biochemistry</td>
<td>4</td>
</tr>
<tr>
<td>BMB 461</td>
<td>Advanced Biochemistry I</td>
<td>3</td>
</tr>
</tbody>
</table>

Effective Fall 2021.
5. Change the requirements for the **Bachelor of Science** degree in *Chemistry* in the Department of Chemistry. The Teacher Education Council (TEC) approved this request at its September 14, 2020 meeting.

a. Under the heading **Requirements for the Bachelor of Science Degree in Chemistry** make the following changes:

   (1) In item 3. a. make the following changes:

      (a) Change the total credits from '29 to 36' to '28 to 33'.

      (b) In item (1) delete the following courses:

         - **BS 162** Organismal and Population Biology 3
         - **BS 182H** Honors Organismal and Population Biology 3
         - **ENT 205** Pests, Society and Environment 3
         - **LB 144** Biology I: Organismal Biology 4
         - **MMG 201** Fundamentals to Microbiology 3
         - **PLB 105** Plant Biology 3
         - **PSL 250** Introductory Physiology 4
         - **ZOL 141** Introductory Human Genetics 3

      (c) In item (5) delete the following course:

         **MTH 255H** Honors Differential Equations 3

      (d) In item (6) add the following item (d): 

         - **PHY 173** Studio Physics for Scientists and Engineers I 5
         - **PHY 174** Studio Physics for Scientists and Engineers II 5

      (e) Replace item (7) with the following:

         The following course (3 credits):
         **BMB 461** Advanced Biochemistry I 3

   (2) In item 3. b. change the total credits from '45 or 46' to '46 or 47'.

   (3) In item 3. b. (3) change the total credits from '30' to '31' and add the following course:

         **CEM 444** Chemical Safety 1

   Effective Fall 2021.

6. Change the requirements for the **Bachelor of Science** degree in *Chemical Physics* in the Department of Chemistry.

a. Under the heading **Requirements for the Bachelor of Science Degree in Chemical Physics** make the following changes:

   (1) In item 3. a. change the total credits from '47 to 56' to '51 to 60' and make the following changes:

      (a) In item (1) change the total credits from '3 or 4' to '3 to 5' and delete the following course:

         **ZOL 141** Introductory Human Genetics 3

      Add the following courses:

         **IBIO 150** Integrating Biology: From DNA to Populations 3
PART I – NEW ACADEMIC PROGRAMS AND PROGRAM CHANGES

(b) Add a new item (2) and renumber items (2) through (10) respectively:

The following course (4 credits):
CMSE 201 Computational Modeling and Data Analysis I 4

(c) In item (6) delete the following course:

MTH 255H Honors Differential Equations 3

(d) In item (8) delete the following courses:

MTH 428H Honors Analysis I 3
MTH 443 Boundary Value Problems for Engineers 3

Add the following course:

MTH 327H Honors Introduction to Analysis 3

(e) Add the following item (d):

PHY 173 Studio Physics for Scientists and Engineers I 5
PHY 174 Studio Physics for Scientists and Engineers II 5

(f) In item (11) add the following course:

PHY 493 Introduction to Elementary Particle Physics 3

(2) In item b. change the total credits from '28 to 30' to '29 to 31' and make the following changes:

(a) In item (4) change the credits of 'CEM 495' from '2' to '3'.

(b) In item (5) change the credits from '6' to '7' and add the following course:

CEM 444 Chemical Safety 1

Effective Fall 2021.

7. Establish a Master of Science degree in Data Science in the Department of Statistics and Probability. The University Committee on Graduate Studies (UCGS) recommended approval of this request at its May 13, 2020 meeting.

a. Background Information:

Data science is an interdisciplinary field whose purpose is the extraction of actionable insights from data in its many forms. Data science employs theories and techniques drawn from various disciplines, including statistics, mathematics, computer science, and information science. It is a field, which is evolving rapidly, under the action of practitioners who are developing new methodologies for their data analysis needs, often with little heed to solid foundations. At the same time, academics are identifying and studying the fields expanding specificities, to the point that data science may already warrant being called a discipline in its own right.

The rationale for offering this program at MSU is three-fold. First, there is a tremendous need for data scientists, particularly at the MS level, in almost every industry. Most industries report the need for staggering numbers of such scientists over the next 10 years. For example, McKinsey Global Institute reports that data science is the #1 job in America with an average base salary in
excess of $105,000. While there are data science programs at other universities, these cannot meet the vast need and demand for data scientists.

MSU has a unique collaboration of three departments: (1) statistics, (2) computer science and engineering, and (3) computational mathematics, science, and engineering – that offer three complementary perspectives on data science. This will ensure our students emerge from the program with a rigorous statistical and mathematical foundation of data science, the ability to develop and apply efficient data science algorithms to problems, and the ability to develop appropriate data science models for a wide variety of applications.

This master’s in data science program will be coupled with an interdisciplinary research center in data science. By coupling this instructional program with a data science research center, MSU will become highly competitive for many federal and other research funding opportunities in data science without introducing any additional costs. The benefit to students comes from exposure to cutting-edge projects.

b. Academic Programs Catalog Text:

The Master of Science degree in Data Science is designed to provide students with an interdisciplinary blend of statistics, computer science, and computational science and mathematics which provides the necessary training to assimilate, process, analyze, and interpret data from diverse sources.

Admission

To be considered for admission to the master’s degree, a student must:

1. Have a four-year bachelor’s degree in a relevant quantitative discipline.
2. Demonstrate sufficient quantitative preparation through work or other relevant experiences.

In addition to meeting the requirements of the university and of the College of Natural Science, students must meet the requirements specified below.

Requirements for the Master of Science Degree in Data Science

A total of 30 credits is required for the degree under Plan B (without thesis). The student’s program of study must be approved by the student’s guidance committee and must meet the requirements specified below.

1. All of the following courses (18 credits):
   - CMSE 830 Foundations of Data Science 3
   - CMSE 831 Computational Optimization 3
   - CSE 482 Big Data Analysis 3
   - CSE 881 Data Mining 3
   - STT 810 Mathematical Statistics for Data Scientists 3
   - STT 811 Applied Statistical Modeling for Data Scientists 3

2. Complete 9 credits of elective courses from the following:
   - CMSE 402 Data Visualization Principles and Techniques 3
   - CMSE 822 Parallel Computing 3
   - CMSE 890 Selected Topics in Computational Mathematics, Science, and Engineering 1 to 4
   - CSE 802 Pattern Recognition and Analysis 3
   - CSE 830 Design and Theory of Algorithms 3
   - CSE 847 Machine Learning 3
   - STT 802 Statistical Computation 3
   - STT 812 Statistical Learning and Data Analysis 3
   - STT 873 Statistical Learning and Data Mining 3
   - STT 874 Introduction to Bayesian Analysis 3
   - STT 875 R Programming for Data Sciences 3

CMSE 890 must be approved by the student’s guidance committee.
3. Completion of a 3-credit capstone course involving an applied, industrial, or governmental data science project. Students may complete this requirement by enrollment in Computer Science and Engineering 890, Computational Mathematics, Science, and Engineering 890, or Statistics and Probability 890. The student’s topic area must be approved by the student’s guidance committee.

4. Completion of a final examination or evaluation.

Effective Fall 2021.

**COLLEGE OF SOCIAL SCIENCE**

   a. Under the heading **Requirements for the Master of Social Work Degree Program** replace the entire entry with the following:

   The student must complete 57 credits in specified instruction in social work. Required course work for both the Clinical Social Work major and the Organization and Community Leadership major are taken in the following areas: social work practice methods, human behavior and the social environment, social welfare policy, research methods, and field education. Additional information can be found at [http://socialwork.msu.edu](http://socialwork.msu.edu).

   **Clinical Social Work**

   1. All of the following courses (51 credits):

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credits</th>

</tbody>
</table>
PART I – NEW ACADEMIC PROGRAMS AND PROGRAM CHANGES

2. Complete 6 credits of general electives at the 400-level or higher as approved by the student’s academic advisor.

Organization and Community Leadership-Advanced Standing

1. All of the following courses (29 credits):
   - SW 812B Integration of Theory, Policy, and Evaluation in Social Work 2
   - SW 822 Topics in Policy Practice and Advocacy 3
   - SW 830 Social Work Research Methods II 2
   - SW 832 Evaluating Social Work Programs and Practice 2
   - SW 842B Advanced Generalist Social Work Practice Methods 2
   - SW 844 Essential Theories in Organizations and Communities Social Work Practice 2
   - SW 865 Social Work Leadership in Organizations and Communities I 3
   - SW 866 Social Work Leadership in Organizations and Communities II 3
   - SW 893B Social Work Field Education: Graduate Advanced Generalist Practice 2
   - SW 894G Social Work Field Education: Organization and Community Leadership I 4
   - SW 894I Social Work Field Education: Organization and Community Leadership II 4

2. Complete 6 credits of general electives at the 400-level or higher as approved by the student’s academic advisor.

3. Complete 3 credits of general electives from the following approved list of courses.
   Many courses require permission for enrollment.
   - ADV 816 Fundraising and Philanthropy in Nonprofit Organizations 3
   - CSUS 433 Grant Writing and Fund Development 3
   - CSUS 858 Gender, Justice and Environmental Change: Issues and Concepts 3
   - GEO 816 The World System of Cities 3
   - HDFS 860 Youth Policy and Positive Youth Development 3
   - HDFS 861 Community Youth Development 3
   - HM 804 Public Health Policy and Administration 3
   - HM 841 Public Health Policy 3
   - HM 854 Health Equity Framework for Public Health Practice 3
   - HM 828 Community Engagement in Public Health Practice 3
   - HRLR 813 Organizational Behavior for Human Resources and Labor Relations 3
   - HRLR 816 Organizational Development and Change 3
   - HRLR 818 Leadership 3
   - HRLR 822 Training and Development 3
   - PDC 403 Introduction to Domicology: Sustainable Built Environment 3
   - PPL 801 Quantitative Methods in Public Policy 3
   - PPL 802 Quantitative Methods in Public Policy II 3
   - PPL 806 Policy Evaluation 3
   - PPL 807 Public Policy 3
   - PPL 808 Policy Development and Administration 3
   - PPL 890 Policy Workshop 3
   - PPL 891 Issues in Public Policy 1 to 3
   - PSY 873 Methods and Practice of Community Engagement I 3
   - PSY 880 Foundations of Evaluation Practice 3
   - PSY 881 Evaluation Design 3
   - PSY 882 Evaluation Data Collection Methods 3
   - PSY 883 Statistics for Evaluators I 3
c. Under the heading **Residence** replace the entry with the following:

One year of residence consisting of two consecutive semesters and involving at least 7 credits of graduate course work each semester is required.

d. Under the heading **Part–Time Students** replace the entry with the following:

Both the Master of Social Work program and the Advanced Standing Master of Social Work program are available on a part–time basis.

At the time of admission, students must apply for either part–time or full–time study. Students may transfer between part–time and full–time study with approval of the School.

Part–time students must progress through a plan of study as specified by the school. All students must meet their residence requirements during the year in which they are enrolled in the advanced practice and field education courses.

Effective Fall 2021.

2. Change the requirements for the **Doctor of Philosophy** degree in **Social Work**. The University Committee on Graduate Studies (UCGS) approved this request at its September 14, 2020 meeting.

a. Under the heading **Admission** replace the entire entry with the following:

The doctoral program in social work invites applications from experienced social workers who hold a Master of Social Work (MSW) degree from a Council on Social Work Education (CSWE) accredited graduate program. Applicants must provide evidence of academic performance via transcripts and standardized test scores, and a capacity to develop concepts and articulate issues related to the social work profession via two writing samples. Students are asked to provide a personal essay that articulates their interest in advanced social work research, education, and practice. Applicants with outstanding academic records may be admitted to the program provisionally and permitted to make up deficiencies on a collateral basis.

b. Under the heading **Requirements for the Doctor of Philosophy Degree in Social Work** replace the entire entry with the following:

1. All of the following courses (18 credits):
   - SW 900 Doctoral Proseminar in Social Work 2
   - SW 901 Knowledge Construction in Social Work 3
   - SW 905 Historical and Current Analysis of Social Work and Social Problems 3
   - SW 911 Research Sequence Practicum I 2
   - SW 912 Research Sequence Practicum II 2
   - SW 920 Evaluation of Social Work Services and Practice 3
   - SW 930 Social Work Research Using Quantitative and Qualitative Methods 3

2. Complete a minimum of 6 credits in statistics at the 800 or 900 level as approved by the student's guidance committee.

3. Complete 15 additional graduate-level credits in a focused cognate or social science discipline, of which 3 credits can be in social work.

4. Pass a comprehensive examination administered by the student’s guidance committee.

Effective Fall 2021.
PART II - NEW COURSES

DEPARTMENT OF ANIMAL SCIENCE

ANS 134  Dairy Production I
Fall of every year. 3(2-2)
Introduction to dairy production and the dairy industry.
SA: ANS 232
Effective Fall 2020

ANS 234  Dairy Production II
Fall of every year. 3(2-2) P: ANS 134
Introduction to biology and management practices related to growth, lactation, and health of dairy animals.
SA: ANS 215
Effective Fall 2020

ANS 235L Dairy Herd Reproduction Laboratory
Fall of every year. Spring of every year. 2(0-4) P: ANS 235 or concurrently
Reproductive anatomy and physiology, semen handling, artificial insemination in dairy cattle, palpation of female reproductive tract, ultrasound, embryo transfer, and in-vitro fertilization.
Effective Spring 2021

ANS 334  Dairy Management I
Fall of every year. 3(2-2) P: ANS 234 RB: ANS 313
Analysis of dairy farm production practices, procedures, and decision-making. Financial analysis of biological and management practices. Field trips required.
SA: ANS 230, ANS 432
Effective Fall 2020

ANS 434  Dairy Management II
Spring of every year. 3(2-2) P: ANS 334
Integration, analysis, and problem solving related to dairy production. Field trips required.
SA: ANS 430, ANS 432
Effective Fall 2020

DEPARTMENT OF BIOCHEMISTRY AND MOLECULAR BIOLOGY

BMB 479  Special Topics in Biochemistry II
Fall of every year. Spring of every year. Summer of every year. 1 to 4 credits. A student may earn a maximum of 6 credits in all enrollments for this course. P: BMB 461 R: Open to undergraduate students in the Biochemistry and Molecular Biology/Biotechnology Major or in the Biochemistry and Molecular Biology major or in the Lyman Briggs Biochemistry and Molecular Biology Coordinate Major or in the Lyman Briggs-Biochemistry/Biotechnology Coordinate Major or approval of department.
Special topics in biochemistry and molecular biology.
Request the use of the Pass-No Grade (P-N) system.
Request the use of ET-Extension to postpone grading.
The work for the course must be completed and the final grade reported within 1 semester after the end of the semester of enrollment.
Effective Fall 2020
THE ELI BROAD COLLEGE OF BUSINESS

BUS 292  Special Topics In Business Abroad
Fall of every year. Spring of every year. Summer of every year. 1 to 6 credits. A student may earn a maximum of 6 credits in all enrollments for this course. R: Open to undergraduate students in the The Eli Broad College of Business or in the Accounting major or in the Business - Admitted major or in the Business-Preference major or in the Finance Major or in the Human Resource Management Major or in the Management Major or in the Marketing Major or in the Supply Chain Management Major or in the Hospitality Business Major or approval of college.

Education abroad emphasizing an introduction to the functional fields in business abroad and their interrelationships. Review of fundamental concepts and principles of business abroad.

Effective Spring 2021

BUS 393  Business Service Learning Abroad
Fall of every year. Spring of every year. Summer of every year. 1 to 6 credits. A student may earn a maximum of 6 credits in all enrollments for this course. R: Open to undergraduate students in the The Eli Broad College of Business or in the Accounting major or in the Business - Admitted major or in the Finance Major or in the Hospitality Business Major or in the Human Resource Management Major or in the Management Major or in the Marketing Major or in the Supply Chain Management Major or in the Business-Preference major or approval of college.

Civil engagement practices and theories. Impact of non-profit organizations, practices of engaged citizenship. Volunteer placements at civic organizations.

Effective Spring 2021

BUS 492  Advanced Topics Abroad
Fall of every year. Spring of every year. Summer of every year. 1 to 6 credits. A student may earn a maximum of 6 credits in all enrollments for this course. R: Open to undergraduate students in the The Eli Broad College of Business or in the Accounting major or in the Finance Major or in the Human Resource Management Major or in the Management Major or in the Marketing Major or in the Supply Chain Management Major or in the Hospitality Business Major or approval of college.

Education abroad emphasizing an advanced study of interrelatedness of business functions abroad not typically found in business academic departments.

Effective Spring 2021

BUS 493  Business Internship
Fall of every year. Spring of every year. Summer of every year. 1 to 3 credits. A student may earn a maximum of 3 credits in all enrollments for this course. R: Open to undergraduate students in the The Eli Broad College of Business or in the Accounting major or in the Business - Admitted major or in the Finance Major or in the Hospitality Business Major or in the Human Resource Management Major or in the Management Major or in the Marketing Major or in the Supply Chain Management Major or approval of college.

Supervised professional or internship experience in agencies or businesses related to the student's major field of study.

Request the use of the Pass-No Grade (P-N) system.

Effective Spring 2021

DEPARTMENT OF CIVIL AND ENVIRONMENTAL ENGINEERING

CE 275  GIS for Civil and Environmental Engineers
Fall of every year. Spring of every year. 1(1-3) P: (EGR 100 and EGR 102) and (CE 274 or concurrently)

Basic operations in GIS software with applications to civil and environmental engineering

Effective Fall 2021

CE 473  Smart and Sustainable Building Design and Operations
Spring of odd years. 3(3-0) Interdepartmental with Environmental Engineering. P: CE 371 or approval of department

Elements of the design and operation of smart and sustainable buildings. Current and future energy-related challenges of existing buildings.

Effective Spring 2021
PART II – NEW COURSES

CE 496  Review for the CE and ENE Fundamentals of Engineering Exams
Fall of every year. Spring of every year. 1(1-0) P: CE 495 or concurrently
- Review of general, civil, and environmental engineering topics in preparation for sitting the
  NCEES Fundamentals of Engineering Exam
- Request the use of the Pass-No Grade (P-N) system.
  Effective Fall 2021

ENE 472  Life Cycle Assessment of Energy Technologies
Spring of every year. 3(2-2) Interdepartmental with Civil Engineering. P: CE 371 or approval of
department R: Open to students in the College of Engineering.
  Use of life-cycle assessment (LCA) for energy technologies to evaluate trade-offs between
  various energy options and guide energy choices.
  Effective Spring 2021

DEPARTMENT OF COMPUTATIONAL MATHEMATICS, SCIENCE, AND ENGINEERING

CMSE 830  Foundations of Data Science
Fall of every year. 3(3-0) RB: (CMSE 201 or CSE 231 or CMSE 801) and (MTH 235 or MTH 340 or
MTH 347H) and ((MTH 309 or MTH 314 or MTH 317H) and STT 810) R: Not open to doctoral
students in the Computational Mathematics, Science and Engineering.
  Core mathematical principles that underlie the algorithms and methods used in data
  science. Applications to problems in data analysis.
  Effective Spring 2020

CMSE 831  Computational Optimization
Spring of every year. 3(3-0) RB: (CMSE 201 or CMSE 801 or CSE 231) and (MTH 235 or MTH 340
or MTH 347H) and ((MTH 309 or MTH 314 or MTH 317H) and STT 810)
  Applications and algorithms for finite-dimensional linear and non-linear optimization
  problems.
  Effective Spring 2020

SCHOOL OF CRIMINAL JUSTICE

CJ 493  Undergraduate Research in Criminal Justice
Fall of every year. Spring of every year. Summer of every year. 1 to 3 credits. A student may earn a
maximum of 6 credits in all enrollments for this course. RB: CJ 292 R: Open to undergraduate
students in the School of Criminal Justice. A student may earn a maximum of 12 credits in all
enrollments for any or all of these courses: CJ 490 and CJ 493.
  Faculty-guided undergraduate research in criminal justice.
  Effective Fall 2020

DEPARTMENT OF ELECTRICAL AND COMPUTER ENGINEERING

ECE 817  Advanced Electrical Drives
Fall of every year. 3(3-0) RB: ECE 313 and ECE 320 Not open to students with credit in ECE 424.
  Modeling and control of AC motors
  Effective Fall 2021

ECE 827  Power Electronic Systems for Renewable Energy, Transportation, and Utility Applications
Spring of odd years. 3(3-0) P: ECE 821
  Converter/inverter system analysis, control, and design. Renewable energy power
  conversion systems. Power/energy conversion systems for hybrid and electric vehicles.
  FACTS (flexible ac transmission system) devices for utility applications.
  SA: ECE 924
  Effective Spring 2022
ECE 830  Embedded Cyber-Physical Systems  
Fall of every year. 3(3-0) RB: Undergraduate degree in Electrical Engineering, Computer Engineering, or related major. R: Open to students in the Department of Electrical and Computer Engineering. Not open to students with credit in ECE 430.  
Modeling continuous and discrete dynamics of embedded cyber-physical systems (CPS). Hybrid systems. Composition of state machines. Concurrent models of computation. Design and implementation of CPS including sensors and actuators, embedded processors, Internet of Things (IoT), cloud IoT, multitasking, and scheduling. Analysis and verification of CPS. Emerging topics in CPS. 
Effective Fall 2020

DEPARTMENT OF EMERGENCY MEDICINE

EM 634  Special Topics in Emergency Medicine  
Fall of every year. Spring of every year. Summer of every year. 3(3-0) P: HM 556 R: Open to graduate-professional students in the College of Human Medicine.  
Knowledge and skills to manage acute medical emergencies in adult and pediatric patients.  
Request the use of the Pass-No Grade (P-N) system.  
Request the use of ET-Extension to postpone grading.  
The work for the course must be completed and the final grade reported within 2 semesters after the end of the semester of enrollment.  
Effective Spring 2020

DEPARTMENT OF EPIDEMIOLOGY AND BIOSTATISTICS

EPI 919  COVID-19 Epidemiology and Public Health  
Fall of every year. Spring of every year. Summer of every year. 3(3-0) R: Open to graduate students in the Department of Epidemiology and Biostatistics or approval of department.  
Application of epidemiologic and public health principles to COVID-19.  
Request the use of ET-Extension to postpone grading.  
The work for the course must be completed and the final grade reported within 1 semester after the end of the semester of enrollment.  
Effective Summer 2020

DEPARTMENT OF FAMILY MEDICINE

FM 614  Breastfeeding and Lactation  
Fall of every year. Spring of every year. Summer of every year. 3(3-0) P: HM 556 R: Open to graduate-professional students in the College of Human Medicine.  
Skills and knowledge necessary to advise and assist breastfeeding infants and their mothers including management of common difficulties.  
Request the use of the Pass-No Grade (P-N) system.  
Request the use of ET-Extension to postpone grading.  
The work for the course must be completed and the final grade reported within 2 semesters after the end of the semester of enrollment.  
Effective Spring 2020

DEPARTMENT OF FINANCE

FI 460  Estate and Income Tax Planning  
Fall of every year. 3(3-0) R: Open to juniors or seniors in the Eli Broad College of Business and The Eli Broad Graduate School of Management. C: FI 370 concurrently.  
Estate planning and income tax planning issues for the financial planner and wealth management advisor.  
Effective Spring 2021
DEPARTMENT OF HORTICULTURE

HRT 841  Foundation in Computational and Plant Sciences
Fall of every year. 3(3-0) Interdepartmental with Biochemistry and Molecular Biology and Computational Mathematics, Science, & Engineering and Crop and Soil Sciences and Plant Biology.
  Computational modeling applied to plant biology. Data analysis, algorithmic thinking, model building, bioinformatics, and molecular biology using coding and computational resources.
  Effective Fall 2020

COLLEGE OF HUMAN MEDICINE

HM 625  Lesbian, Gay, Bisexual, Transgender, Queer, Intersex, Asexual+ Health Care
Fall of every year. Spring of every year. Summer of every year. 3(3-0) P: HM 556 R: Open to graduate-professional students in the College of Human Medicine.
  LGBTQIA+ history and culture, identification of own biases, and skills in engaging the LGBTQIA+ community in a clinical setting.
  Request the use of the Pass-No Grade (P-N) system.
  Request the use of ET-Extension to postpone grading.
  The work for the course must be completed and the final grade reported within 2 semesters after the end of the semester of enrollment.
  Effective Spring 2020

HM 626  Special Topics in Neurologic Conditions
Fall of every year. Spring of every year. Summer of every year. 3(3-0) P: HM 556 R: Open to graduate-professional students in the College of Human Medicine.
  Case-based overview of common neurologic conditions, diagnosis, treatment.
  Request the use of the Pass-No Grade (P-N) system.
  Request the use of ET-Extension to postpone grading.
  The work for the course must be completed and the final grade reported within 2 semesters after the end of the semester of enrollment.
  Effective Spring 2020

HM 825  Transition to Graduate Academic Writing
Fall of every year. Spring of every year. Summer of every year. 1(1-0) RB: completion of Tier 2 writing assignment or undergraduate degree R: Approval of college.
  Identify and analyze scholarly articles and published research studies to develop effective writing skills within the genre of academic writing and scholarship.
  Request the use of the Pass-No Grade (P-N) system.
  Effective Summer 2020

HM 862  Global Pandemics and Public Health Systems, Law, and Community Impacts
Fall of every year. Spring of every year. 3(3-0) P: HM 101 R: Open to students in the Public Health Major and open to juniors or seniors and open to graduate students. Approval of college.
  Public health systems and response to pandemics including public health law and ethics, disease transmission, testing and treatment, and social and community context.
  Effective Summer 2020

CENTER FOR INTEGRATIVE STUDIES IN GENERAL SCIENCE

ISB 210L  Science and Society: Impacts of Daily Decisions Lab
Fall of every year. Spring of every year. Summer of every year. 2(1-2) P: MTH 101 or MTH 103 or MTH 103B
  Investigating and analyzing the environmental and personal impacts of daily decisions (fuels, energy, food, water, consumer goods).
  Effective Fall 2020
PART II – NEW COURSES

**MSU COLLEGE OF LAW**

LAW 533Y  Trademark Counterfeiting: Legal Approaches to Protecting the Brand
On Demand. 0 to 6 credits. P: (LAW 533N or LAW 535D) and completion of Tier I writing requirement R: Open to Law students in the MSU College of Law.
Reactive and proactive legal approaches to combating trademark counterfeiting and brand protection in the U.S. and various global legal frameworks.
Effective Spring 2020

LAW 535R  Rethinking Intellectual Property in a Technological Age
Spring of every year. 0 to 6 credits. R: Open to Law students in the MSU College of Law.
Seminar on selected topics in intellectual property.
Effective Spring 2021

LAW 541Y  The Law of American Chattel Slavery: Origins and Development
On Demand. 0 to 6 credits. R: Open to Law students in the MSU College of Law.
Origins, development, and legacy of the laws that built and sustained a slave society.
Effective Spring 2021

LAW 811D  A Survey of Hemp: Uses, Issues, and Perceptions
Summer of every year. 0 to 6 credits. R: Open to law advanced students in the MSU College of Law or in the Global Food Law Major.
Overview of the laws and regulations related to hemp at the state and federal levels.
Effective Summer 2020

LAW 811E  Drafting, Amending, and Updating Food Laws: Government, Industry, and Consumer Inputs
Summer of every year. 0 to 6 credits. R: Open to law advanced students in the MSU College of Law or in the Global Food Law Major.
Analysis of the steps required to draft, amend and update food laws and regulations from a global perspective.
Effective Summer 2020

**DEPARTMENT OF MANAGEMENT**

MGT 225  Women Leadership in Business
Fall of every year. Spring of every year. 1 to 2 credits. R: Open to sophomores or juniors or seniors in the Accounting major or in the Finance Major or in the Hospitality Business Major or in the Marketing Major or in the Supply Chain Management Major or in the Business - Admitted major or in the Human Resource Management Major or in the Management Major or approval of department.
Investigation of the status of women in business today and the importance of diversity in building innovative companies.
Effective Fall 2021

MGT 852  Entrepreneurship: Recognizing New Venture Opportunities
Spring of every year. 1 to 3 credits. P: MBA 824 or MGT 824 R: Open to graduate students in the Eli Broad College of Business and The Eli Broad Graduate School of Management or approval of department.
Appropriate techniques required to recognize new venture opportunities. Develop and evaluate ideas to determine whether they could become a viable new venture.
REINSTATEMENT Effective Spring 2021
COLLEGE OF OSTEOPATHIC MEDICINE

OST 620  Patient Safety and Quality Improvement
Fall of every year. Spring of every year. Summer of every year. 2 to 3 credits. A student may earn a maximum of 4 credits in all enrollments for this course. R: Open to students in the College of Osteopathic Medicine.

Foundations of patient safety and quality improvement incorporating Institute for Healthcare Improvement's (IHI) certification.
Request the use of the Pass-No Grade (P-N) system.
Request the use of ET-Extension to postpone grading.
The work for the course must be completed and the final grade reported within 2 semesters after the end of the semester of enrollment.
Effective Fall 2020

OST 621  Leadership in Healthcare
Fall of every year. Spring of every year. Summer of every year. 3(2-2) R: Open to students in the College of Osteopathic Medicine.

Develop healthcare-focused leadership skills through review of theory and interactive discussions with experts.
Request the use of the Pass-No Grade (P-N) system.
Request the use of ET-Extension to postpone grading.
The work for the course must be completed and the final grade reported within 2 semesters after the end of the semester of enrollment.
Effective Fall 2020

DEPARTMENT OF PLANT BIOLOGY

PLB 814  Advanced Principles and Applications of Epigenetics
Spring of odd years. 3(3-0) Interdepartmental with Integrative Biology. P: IBIO 341 or CSS 350 or approval of college R: Not open to undergraduate students or approval of college. Not open to students with credit in PLB 480.

Epigenetics and epigenomics including the molecular mechanisms of epigenetic modifications of eukaryotic genomes.
Effective Spring 2021

DEPARTMENT OF RELIGIOUS STUDIES

REL 232  Islam in America
Fall of every year. Spring of every year. 3(3-0)
Introduction to the history and evolution of Islam in America.
Effective Spring 2021

REL 285  Introduction to Social Entrepreneurship and Religion
Summer of every year. 3(3-0)
Social entrepreneurship, nonprofits and religious organizations in the U.S. Role of religion and religious organizations in social innovation and entrepreneurship. Social change in civil society. Business plan creation.
Effective Fall 2020

DEPARTMENT OF WRITING, RHETORIC AND AMERICAN CULTURES

WRA 810  Writing, Composing, Designing, Making
Fall of every year. 3 credits. R: Open to graduate-professional students in the Department of Writing, Rhetoric and American Cultures.

Practices of writing, composing, designing, and making primarily digital texts. Practice informed by current topics in and theories of professional and technical writing, cultural rhetorics, including critical making and multimodal composing.
Effective Fall 2021
**PART III – COURSE CHANGES**

**DEPARTMENT OF AGRICULTURAL, FOOD, AND RESOURCE ECONOMICS**

**ABM 437**  
Agribusiness Strategic Management (WI)  
Spring of every year. 3(4-0) P: (FIM 220) and ((ABM 435 or FI 320) and completion of Tier I writing requirement) RB: (ABM 303) or (ABM 203 and EC 301) R: Open to seniors.  
Analysis of strategic management issues for agribusiness. Formulation of business strategy and solutions to strategic problems. Integration of operations, marketing, finance, and human resource management.  
SA: FSM 429

DELETE COURSE  
Effective Fall 2020

ANS 232  Introductory Dairy Cattle Management  
Fall of every year. 3(2-2) Not open to students with credit in ANS 432.  
Principles and techniques of dairy herd management including calf and heifer care plus lactating and dry cow management.  
DELETE COURSE  
Effective Fall 2020

ANS 233  Dairy Feed Management  
Fall of every year. 3(2-2) P: ANS 203 P: ANS 134 RB: ANS 203  R: Open to students in the Institute of Agricultural Technology.  
SA: ANS 051  
Effective Fall 2013 Effective Fall 2020

ANS 235  Dairy Herd Reproduction  
Spring of every year. 2(2-0) P: ANS 205 P: ANS 134 RB: ANS 232 or concurrently RB: ANS 295 R: Open to students in the Institute of Agricultural Technology.  
Application of reproductive principles to dairy production. Field trip required.  
Effective Summer 2014 Effective Fall 2020
PART III – COURSE CHANGES

ANS 238  Dairy Health Management
Dairy Cattle Health Management
Spring of every year. 3(2-2) P: ANS 232 or concurrently R: Open to students in the Institute of Agricultural Technology.
Detection of dairy cattle disease. Infections and metabolic problems.
Effective Fall 2013 Effective Fall 2021

ANS 300C  Advanced Dairy Cattle Judging
Dairy Cattle Judging Team
Fall of every year. 2(0-4) P: ANS 200C R: Not open to freshmen. R: A student may earn a maximum of 8 credits from the following courses: ANS 200A, ANS 200C, ANS 200D, ANS 200E, ANS 300A, ANS 300C, ANS 300D, ANS 300E, and ANS 300F.
Evaluation of conformation of various breeds of dairy cattle. Represent MSU in intercollegiate competition. Field trips required.
Effective Fall 2013 Effective Fall 2021

ANS 300E  Animal Welfare Judging
Fall of every year. 4(0-2) 2(0-4) A student may earn a maximum of 6 credits in all enrollments for this course. R: ANS 200E P: ANS 200E or concurrently RB: (ANS 110) and (ANS 305 or IBIO 313) R: Not open to freshmen. R: A student may earn a maximum of 8 credits from the following courses: ANS 200A, ANS 200C, ANS 200D, ANS 200E, ANS 200F, ANS 300A, ANS 300C, ANS 300D, ANS 300E, and ANS 300F.
Enhanced understanding of the physiological and behavioral indicators of animal welfare. Ethical values in the assessment of welfare status. Intercollegiate competition. Field trips required.
Effective Summer 2017 Effective Fall 2021

ANS 300F  Advanced Dairy Farm Evaluation
Dairy Challenge Experiences
Spring of every year. 2(0-4) P: (ANS 200E and ANS 432) and (ANS 430 or concurrently) R: ANS 434 or concurrently RB: ANS 313 RB: ANS 434 R: Not open to freshmen or sophomores. Approval of department. R: Approval of department. A student may earn a maximum of 8 credits from the following courses: ANS 200A, ANS 200C, ANS 200D, ANS 200E, ANS 200F, ANS 300A, ANS 300C, ANS 300D, ANS 300E, and ANS 300F.
Evaluation of factors important in successful management of a dairy farm business. Represent Michigan State University in intercollegiate competition. Field trips required.
Evaluation of factors important in successful management of a dairy farm business. Intercollegiate competition as part of Dairy Challenge Team. Field trips required.
Effective Fall 2013 Effective Fall 2021

ANS 430  Dairy Systems Management
Spring of every year. 3(2-3) P: ANS 313 and ANS 432 R: Not open to freshmen or sophomores. Decision-making strategies for dairy farms. Emphasis on herd replacements, personnel, health, facilities, nutrient management and other issues associated with dynamic markets and business environments. Field trips required.
DELETE COURSE
Effective Fall 2020

ANS 432  Advanced Dairy Cattle Management
Fall of every year. 3(2-2) P: ANS 232 RB: ANS 313 R: Not open to freshmen or sophomores. Management techniques for operating a dairy herd. Mastitis control, reproductive and nutrition management, records, and general herd health. Field trips required.

Effective Fall 2020
**DEPARTMENT OF ART, ART HISTORY, AND DESIGN**

GD 460  
Graphic Design II: Visual Communication  
Fall of every year. Spring of every year. 3(0-6)  
P: (GD 360 or STA 360) and (GD 365 or STA 365)  
R: (GD 360) and GD 365  
RB: Understanding of how to use a personal computer and web browsers.  
Advance from the analysis of form to the meaning of form. Synthesis of form and content will progress towards cohesive communication systems.  
SA: STA 460  
*
Effectively Summer 2018 Effective Fall 2020*

**DEPARTMENT OF BIOSYSTEMS AND AGRICULTURAL ENGINEERING**

BE 469  
Sustainable Bioenergy Systems  
Spring of every year. 3(3-0)  
Interdepartmental with Chemical Engineering.  
P: BE 230 or CHE 201  
P: ((BE 230 or CHE 201) and (BE 351 or CHE 321)) or (ME 201 and ENE 481)  
RB: CSS 467 and CHE 468  
R: Open to juniors or seniors in the College of Engineering.  
Biorefinery analysis and system design. Life cycle assessment to evaluate sustainability of bioenergy systems. Current policy regulating the bioeconomy and system economics. Product commercialization.  
*
Effectively Fall 2013 Effective Fall 2020*

**THE ELI BROAD COLLEGE OF BUSINESS**

EMB 801  
Business Unit Strategy  
Fall of every year. Summer of every year. 1 to 2 credits.  
R: Open to Executive MBA students.  
Positioning the firm for competitive advantage. Institutional and corporate control. Organizational design.  
Request the use of ET-Extension to postpone grading.  
The work for the course must be completed and the final grade reported within 1 semester after the end of the semester of enrollment.  
DELETE COURSE

EMB 845  Entrepreneurship  
Fall of every year. Summer of every year. 1(1-0) R: Open to Executive MBA students.  
Process of planning, starting, and positioning new businesses which link directly to  
customer requirements. Understanding unmet market opportunity due to competitive gaps  
or customer needs for both consumer and industrial products and services.  
Request the use of ET-Extension to postpone grading.  
The work for the course must be completed and the final grade reported within 1 semester  
after the end of the semester of enrollment.  
SA: MSC 832  
DELETE COURSE  
Effective Spring 2020

EMB 847  Business Decision Making and Marginal Analysis  
Fall of every year. Summer of every year. 2 to 3 credits. R: Open to Executive MBA students.  
Application and interpretation of analytical models to support decision making. Topics  
include understanding the selection of appropriate analytical tools for a given problem, the  
interpretation of statistical results, and decision analysis.  
Request the use of ET-Extension to postpone grading.  
The work for the course must be completed and the final grade reported within 1 semester  
after the end of the semester of enrollment.  
DELETE COURSE  
Effective Spring 2020

EMB 856  Human Resources and Critical Organizational Transitions  
Fall of every year. Spring of every year. Summer of every year. 1 to 3 credits. R: Open to Executive  
MBA students.  
Managing human resources to support significant changes in business configuration and  
strategy, including mergers and acquisitions, outsourcing and workforce reductions, and  
globalization. Evaluation of the effectiveness of the human resource management  
function.  
Request the use of ET-Extension to postpone grading.  
The work for the course must be completed and the final grade reported within 1 semester  
after the end of the semester of enrollment.  
DELETE COURSE  
Effective Spring 2020

EMB 861  Strategic Management of Information Technology  
Spring of every year. 2(2-0) R: Open to Executive MBA students.  
Role of Information Technology (IT) in creating organizational efficiency, competitive  
differentiation and advantage. Examines various IT investment types and effective  
strategies for leveraging IT value.  
Request the use of ET-Extension to postpone grading.  
The work for the course must be completed and the final grade reported within 1 semester  
after the end of the semester of enrollment.  
DELETE COURSE  
Effective Spring 2020

EMB 863  Strategy Process: Generation and Implementation  
Spring of every year. Summer of every year. 2(2-0) R: Open to Executive MBA students.  
Managing strategic processes in the firm. Integration of environmental factors, industry  
dynamics, organizational resources, and management functions in the analysis and  
solution of strategic issues.  
Request the use of ET-Extension to postpone grading.  
The work for the course must be completed and the final grade reported within 1 semester  
after the end of the semester of enrollment.  
DELETE COURSE  
Effective Spring 2020
PART III – COURSE CHANGES

EMB 865  Business Ethics and Professional Responsibility
Spring of every year. 2(2-0) R: Open only to students in the Executive M.B.A Program.
Alternative ethical prescriptions for business and for enterprise managers and their evolution with globalization of the markets. Societal expectations of what constitutes responsible and irresponsible business behavior. Government regulation and changes in corporate governance as alternatives to conformity to ethical prescriptions. Negotiation and reconciliation of conflicting ethical prescriptions, governance procedures, and the regulatory environment.
DELETE COURSE
Effective Spring 2020

EMB 866  Managing Teams and Negotiations
Fall of every year. Summer of every year. 1 to 2 credits. R: Open to Executive MBA students.
Development of team management and negotiation capabilities. Group decision making, conflict management, and resolution.
Request the use of ET-Extension to postpone grading.
The work for the course must be completed and the final grade reported within 1 semester after the end of the semester of enrollment.
DELETE COURSE
Effective Spring 2020

EMB 877  Leadership Development
Fall of every year. Summer of every year. 1(1-0) R: Open to Executive MBA students.
Identification of underlying competencies important for leadership success. Assessment of student's current leadership competencies and development of an improvement plan. Disclosure of how the student's leadership behaviors are perceived by multiple sources in the organization and use of this knowledge to further enhance leadership effectiveness. Request the use of ET-Extension to postpone grading.
The work for the course must be completed and the final grade reported within 1 semester after the end of the semester of enrollment.

RB: PHY 184 or PHY 232 or PHY 232C or PHY 294H or LB 274 or PHY 174 or PHY 222 or PHY 242  
Physical chemistry of macroscopic systems: thermodynamics, kinetics, electrochemistry.  
SA: CEM 391  
Effective Spring 2013 Effective Fall 2020

**CEM 384**  
Introductory Physical Chemistry II  
Spring of every year. 3(4-0) P: (CEM 142 or CEM 152 or CEM 182H or LB 172) and (MTH 133 or MTH 153H or MTH 126 or LB 119) and (PHY 184 or PHY 232 or PHY 232C or PHY 294H or LB 274)  
P: (CEM 142 or CEM 152 or CEM 182H or LB 172) and (MTH 133 or MTH 153H or MTH 126 or LB 119) and (PHY 184 or PHY 232 or PHY 232C or PHY 294H or LB 274 or PHY 174 or PHY 222 or PHY 242)  
RB: CEM 383  
Physical chemistry of microscopic systems: quantum mechanics, spectroscopy.  
Effective Spring 2013 Effective Fall 2020

**CEM 483**  
Quantum Chemistry  
Fall of every year. 3(4-0) P: (MTH 235 or MTH 347H or MTH 340) and (PHY 184 or PHY 294H or LB 274 or PHY 184B) and (CEM 142 or CEM 152 or CEM 181H or LB 172)  
P: (MTH 235 or MTH 347H or MTH 340) and (PHY 184 or PHY 294H or LB 274 or PHY 184B or PHY 174) and (CEM 142 or CEM 152 or CEM 181H or LB 172)  
Postulates of quantum mechanics and the application to model systems, atoms and molecules. Introduction to molecular spectroscopy.  
SA: CEM 362, CEM 461  
Effective Fall 2015 Effective Fall 2020

**DEPARTMENT OF CIVIL AND ENVIRONMENTAL ENGINEERING**

**CE 341**  
Transportation Engineering  
Fall of every year. Spring of every year. 3(3-0) P: (MTH 234 or concurrently) or (MTH 254H or concurrently) or (CE 273 or concurrently) and completion of Tier I writing requirement)  
P: (MTH 234 or concurrently) or (MTH 254H or concurrently) or (LB 220 or concurrently) or (CE 273 or concurrently) and completion of Tier I writing requirement)  
RB: Open to juniors or seniors in the Department of Civil and Environmental Engineering or in the Urban and Regional Planning Major.  
Overview of transportation system issues and problems. Fundamentals of highway design and operations. Planning and evaluation of transportation system alternatives.  
Fundamentals of transportation planning, traffic flow and level-of-service, traffic signal design, geometric design of highways, and highway safety.  
SA: CE 346  
Effective Fall 2016 Effective Fall 2021

**CE 371**  
Sustainable Civil and Environmental Engineering Systems  
Fall of every year. Spring of every year. 3(3-0) Interdepartmental with Environmental Engineering.  
P: (MTH 234 or concurrently) or (MTH 254H or concurrently) or (CE 273 or concurrently) and completion of Tier I writing requirement)  
P: (MTH 234 or concurrently) or (CE 273 or concurrently) and completion of Tier I writing requirement)  
RB: Open to juniors or seniors in the Civil Engineering Major or in the Environmental Engineering Major.  
R: Open to juniors or seniors in the Applied Engineering Sciences Major or in the Energy Minor or in the Civil Engineering Major or in the Environmental Engineering Major.  
Principles and tools of sustainable design and engineering economics in Civil and Environmental Engineering.  
SA: CE 272  
Effective Fall 2017 Effective Fall 2021
CE 372  Risk Analysis in Civil and Environmental Engineering
Fall of every year. Spring of every year. 2(2-0) 3(2-2) P: (MTH 234 or concurrently) or (LB 220 or concurrently) or (MTH 254H or concurrently) R: Open to juniors in the Civil Engineering Major or in the Environmental Engineering Major and open to seniors in the Civil Engineering Major or in the Environmental Engineering Major. R: Open to juniors in the Civil Engineering Major or in the Environmental Engineering Major and open to seniors or juniors in the Civil Engineering Major or in the Environmental Engineering Major.
Applications of probability, statistics, uncertainty and risk analysis to topics in civil and environmental engineering, characterization of system safety, and comparison tests for engineering quality control and environmental analyses.
SA: CE 272  
Effective Fall 2013  Effective Fall 2021

CE 485  Landfill Design
Spring of every year. 3(3-0) Interdepartmental with Environmental Engineering. P: ENE 280 and CE 342 P: ENE 280 and CE 321 RB: CE 312
Geotechnical and environmental design of solid waste landfills.  
Effective Spring 2020  Effective Fall 2021

ENE 280  Principles of Environmental Engineering and Science
Fall of every year. 3(3-0) Interdepartmental with Civil Engineering. P: (CEM 141 or CEM 151 or LB 171) and ((MTH 132 or concurrently) or (MTH 152H or concurrently) or (LB 118 or concurrently)) P: (CEM 141 or CEM 151 or LB 171) and (MTH 133 or MTH 153H or LB 119) Physical, chemical and biological processes related to environmental science and engineering. Environmental systems analysis with application to air, water and soil. Analysis of environmental problems and development of engineering solutions. Analysis of environmental problems and engineering solutions based on physical, chemical, and biological processes. Mass balance modeling of contaminant fate, transport and removal in environmental media.
Effective Fall 2013  Effective Fall 2021

ENE 480  Environmental Measurements Laboratory
Fall of every year. 4(0-3) 2(1-3) Interdepartmental with Civil Engineering. P: (CEM 161 or CEM 185H or LB 171L) and ENE 280 and (CEM 142 or CEM 152 or CEM 182H or LB 172) and ((ENE 481 or concurrently) or (ENE 483 or concurrently)) and Completion of Tier I Writing Requirement R: Open to juniors or seniors or graduate students in the College of Engineering.
Basic chemical and microbiological methods used in the analysis of environmental media. Laboratory safety, quality assurance, quality control, and statistics used in laboratory analysis. Related technical communication, laboratory report writing. Basic chemical and microbiological methods used in the analysis of environmental media. Laboratory safety, quality assurance, quality control, and statistics used in laboratory analysis.
Effective Fall 2018  Effective Fall 2021

ENE 481  Environmental Chemistry: Equilibrium Concepts
Fall of every year. 3(3-0) Interdepartmental with Civil Engineering. P: ((CEM 141 and CEM 142) or (CEM 151 and CEM 152) or (CEM 181H and CEM 182H) or (LB 171 and LB 172)) and (ENE 280 or BE 230 or GLG 201 or GLG 301 or approval of department) P: ((CEM 141 and CEM 142) or (CEM 151 and CEM 152) or (CEM 181H and CEM 182H) or (LB 171 and LB 172)) and (ENE 280 or BE 230 or GLG 201 or GLG 301 or approval of department) and (CHE 201 or concurrently) or (CHE 251 or concurrently) R: Open to sophomores or juniors or seniors or graduate students in the Department of Biosystems and Agricultural Engineering or in the Department of Chemical Engineering and Materials Science or in the Department of Civil and Environmental Engineering or in the Department of Earth and Environmental Sciences.
Chemistry of natural environmental systems and pollutants. Equilibrium concepts and calculations for acid-base, solubility, complexon, redox and phase partitioning reactions and processes. Applications to ecosystem analysis, pollutant fate and transport, and environmental protection. Chemistry of environmental systems and air, water, and soil pollutants as applied to environmental engineering. 
Effective Fall 2013  Effective Fall 2021
ENE 489  Air Pollution: Science and Engineering  
Spring of every year. 3(3-0) Interdepartmental with Civil Engineering. P: (CEM 141 or CEM 151 or LB 171) and (MTH 133 or MTH 153H or LB 119) and (ENE 280 or BE 230) and (CE 321 or CHE 311) P: (CEM 141 or CEM 151 or LB 171) and (MTH 133 or MTH 153H or LB 119) and (ENE 280 or BE 230) and (CE 321 or CHE 311) and (CE 372 or CHE 316) and ((ME 201 or concurrently) or (BE 351 or concurrently) or (CHE 321 or concurrently)) R: Open to juniors or seniors or graduate students in the College of Engineering. 
Basic physical and chemical principles governing indoor and atmospheric air pollution. Elements of air pollution meteorology, climate change, atmospheric transformations and transport. Air pollution sources and methods for their control. The role of local, state and federal government in air pollution control. Basic physical and chemical principles governing indoor and atmospheric air pollutant fate, transport and control technologies. 
Effective Fall 2013 Effective Fall 2021

COLLEGE OF COMMUNICATION ARTS AND SCIENCES

CAS 214  Social Media and the Start-up  
Spring of every year. Summer of every year. 3(3-0) Interdepartmental with Writing, Rhetoric and American Cultures. P: BUS 190 and CAS 114 P: CAS 114 R: Open to undergraduate students in the Entrepreneurship and Innovation Minor. 
Introduction to using digital spaces and social media to propel entrepreneurship ideas forward. Survey of how businesses and organizations’ websites, videos, podcasts, and social media presence brand products and organizations. Website, mobile and social media presence to promote entrepreneurial idea. 
Effective Spring 2017 Effective Summer 2021

DEPARTMENT OF COMMUNITY SUSTAINABILITY

CSUS 447  Community Economic Development  
Spring of every year. 3(3-0) Interdepartmental with Environmental Economics and Policy and Sociology. P: EC 201 or EC 202 
Theories, frameworks, policies, concepts, principles, models, and skills for community economic development. Community participation in local development initiatives. SA: ESA 470, RD 470

ENT 404  Fundamentals of Entomology
Fall of every year. 3(2-4) 4(2-4) P: BS 162 or PLB 105 or LB 144
   Insect classification, identification, diversity, physiology and ecology. Importance of insects to humans and the environment. Insect collection required.
   Effective Fall 2013 Effective Fall 2021

DEPARTMENT OF FINANCE

FI 321  Theory of Investments
Fall of every year. Spring of every year. 3(3-0) P: FI 311 P: FI 311 or FI 320 R: Open to juniors or seniors in the Actuarial Science Major or in the Actuarial Science Minor or in the Economics Major. Not open to students with credit in FI 312.
   Theoretical analysis of common stocks, bonds, options and futures. Tradeoff between risk and return, market efficiency, efficient portfolios and CAPM. Cash flow evaluation and option evaluation.
   Effective Spring 2018 Effective Spring 2021
DEPARTMENT OF FOOD SCIENCE AND HUMAN NUTRITION

FSC 422  Advanced Professional Seminar in Food Science
Spring of every year. 1(1-0) P: FSC 222 RB: Advanced course work in food science R: Open to students in the Food Science Major.
Preparation for success in food science careers, marketing tools, business communication skills, and contemporary topics in food science.
DELETE COURSE
Effective Summer 2019

FSC 843  Exposure Science and Environmental Epidemiology
Fall of even years, Spring of odd years. 3(3-0) RB: Statistics, basic biological and chemical science
Effective Fall 2019 Effective Fall 2021

DEPARTMENT OF GEOGRAPHY, ENVIRONMENT, AND SPATIAL SCIENCES

GEO 869  Agent-Based Modeling
Spring of every year. 3(3-0) Interdepartmental with Environmental Science and Policy. RB: Basic understanding of data structures and algorithms covered in an introductory course of any programming language. R: Approval of department.
Theoretical concepts related to simulating dynamic geographic phenomena in the intersection between human and natural systems. Innovative agent-based methodology applied to complex social-environmental systems. Hands-on experience of agent-based modeling, with special emphasis on modeling human decision-making and its impact on the natural environment.
Effective Summer 2019 Effective Spring 2021

COLLEGE OF HUMAN MEDICINE

HM 847  Public Health in Ghana: Methods for Community Practice
Public Health in Ghana: A One Health Perspective
Summer of every year. 4(4-0) 5(5-0) Interdepartmental with Osteopathic Medicine. P: HM 848 RB: Academic or professional background in public health and/or public health related discipline; undergraduate level health-related discipline R: Open to students in the Public Health Major and open to juniors or seniors. Approval of college; application required. R: Approval of college; application required.
Overview of major public health issues and the health care system, both Western and traditional, in Ghana. Health status indicators and determinants; major programs/strategies; organization of the health care system; access to and payment for care; role, image and status of health care providers; interface between Western and traditional medicine; basic qualitative and quantitative field research methods for community health. Major public health issues in Ghana from a One Health perspective; interface between Western and traditional health care beliefs and practices in Ghana; community engagement experience employing participatory research methods with emphasis on social justice and ethical conduct of research.
Request the use of ET-Extension to postpone grading.
The work for the course must be completed and the final grade reported within 1 semester after the end of the semester of enrollment.
Effective Summer 2015 Effective Summer 2021
SCHOOL OF JOURNALISM

JRN 375
International Journalism and Media
Fall of every year. 3(3-0)
Survey of media and journalism news systems around the world. Contemporary issues in international journalism. Press theory and effects on press freedom and media independence. Foreign correspondence reporting.
SA: JRN 335 SA: JRN 335, JRN 375
Effective Fall 2015 Effective Fall 2021

JRN 265
JRN 265
International Journalism and Media
Fall of every year. 3(3-0)
Survey of media and journalism news systems around the world. Contemporary issues in international journalism. Press theory and effects on press freedom and media independence. Foreign correspondence reporting.
SA: JRN 335 SA: JRN 335, JRN 375
Effective Fall 2015 Effective Fall 2021

JRN 475
JRN 475
International News and Government Dynamics
Spring of every year. 3(3-0) A student may earn a maximum of 6 credits in all enrollments for this course. R: Not open to freshmen.
Comparative features of global media and coverage within regional contexts that rotate each year: Latin America and the Caribbean; Africa and the Middle East; Europe; or Asia and the Pacific. Historical influences and impact of state-press relations and communications technologies.
SA: JRN 475
Effective Summer 2016 Effective Fall 2021

MSU COLLEGE OF LAW

LAW 508B
Corporate Finance
Fall of every year. 2 to 4 credits. P: LAW 500M P: LAW 500M or concurrently R: Open to students in the MSU College of Law.
This course focuses on the principles of accounting, valuation, and the basic financial environment of close corporations and public companies. Principles of accounting, valuation, and the basic financial environment of close corporations and public companies.
SA: DCL 380
Effective Spring 2006 Effective Fall 2020

LAW 524B
Securities Regulation I
Spring of every year. 2 to 4 credits. P: LAW 500M P: LAW 500M or concurrently R: Open to students in the MSU College of Law.
This course explores the regulation requirements applied to public offers of securities. Emphasis will be placed on the Security Act of 1933 and the Michigan Blue Sky law. Regulatory requirements applied to public offers of securities and publicly held companies.
SA: DCL 428
Effective Spring 2006 Effective Fall 2020

LAW 810F
Codex Alimentarius: The World Food Code
International Food Standards – FAO and WHO
Fall of every year. Spring of every year. Summer of every year. 0 to 6 credits. R: Open to master’s of law students. R: Open to law advanced students. Not open to students with credit in ANR 490 or FSC 816.
Development and workings of Codex Alimentarius. History, development and workings of the Codex Alimentarius Commission in formulating and harmonizing food standards and ensuring their global implementation; content and legal application of Codex Alimentarius.
Effective Fall 2012 Effective Fall 2020

DEPARTMENT OF LINGUISTICS AND GERMANIC, SLAVIC, ASIAN AND AFRICAN LANGUAGES

GRM 201
Second-Year German I
Fall of every year. Spring of every year. 3(3-0) P: (GRM 102) or designated score on German Placement test R: Approval of department
Intermediate-level development of all language skills. Reading, viewing, and discussion of a broad range of cultural materials from the German-speaking world.
Effective Summer 2020 Effective Summer 2021
LIN 225  Language and Gender
Fall of every year. Spring of every year. Summer of every year. 3(3-0) Interdepartmental with Women's Studies.
Gender and language in societies around the world. Issues such as status, power and politeness in monolingual and multilingual societies. The role of gender in language development, language variation and language change.
Effective Fall 2015 Effective Fall 2020

LIN 824  Phonological Theory I
Fall of every year. Spring of every year. 3(3-0) RB: LIN 424
Major phonological theories, argumentation, and advanced skills of phonological analysis.
Effective Fall 2000 Effective Fall 2020

LIN 825  Phonological Theory II
Fall of every year. Spring of every year. 3(3-0) RB: LIN 824
Issues in phonology. Current controversies and trends of research in phonology.
Effective Fall 2000 Effective Spring 2021

DEPARTMENT OF MATHEMATICS

MTH 201  Elementary Mathematics for Teachers I
Fall of every year. Spring of every year. Summer of every year. 3(3-0) P: (MTH 103 or MTH 116 or MTH 124 or MTH 132 or MTH 152H or LB 118 or MTH 101 or MTH 102) or designated score on Mathematics Placement test P: (MTH 103 or MTH 116 or MTH 124 or MTH 132 or MTH 152H or LB 118 or MTH 101 or MTH 102 or MTH 103B) or designated score on Mathematics Placement test R: Open to students in the Child Development major or in the Education Major or in the Special Education-Learning Disabilities Major or in the Teacher Certification Internship Year Studies Program.
Mathematics needed for K-8 teaching. Place value and models for arithmetic, mental math, word problems, and algorithms. Factors, primes, proofs, and prealgebra.
Fractions, ratios, rates, and percentages. Negative, rational, and real numbers. Special emphasis on the appropriate sequential order for teaching. Mathematics needed for teaching grades PreK - 6. Place value, algorithms for whole numbers, decimals, and fractions with an emphasis on children's mathematical thinking.
Effective Spring 2019 Effective Fall 2019

MTH 202  Elementary Mathematics for Teachers II
Fall of every year. Spring of every year. Summer of every year. 3(3-0) P: MTH 201 R: Open to students in the Education Major or in the Special Education-Learning Disabilities Major or in the Child Development major or in the Teacher Certification Internship Year Studies Program.
A continuation of MTH 201. Measurement, elementary geometry, and elementary number theory with an emphasis on children's mathematical thinking.
Effective Fall 2013 Effective Fall 2020

DEPARTMENT OF MEDICINE

MED 492  Basics and Methods in Biomedical Research
Fall of every year. Spring of every year. 2 to 4 credits. P: ((BS 161 or BS 181H) and (BS 171 or BS 191H)) or LB 145 and ((MTH 103 or MTH 110 or MTH 116) or designated score on Mathematics Placement test) and (CEM 252 or CEM 352) P: ((BS 161 or BS 181H) and (BS 171 or BS 191H)) or LB 145 and (MTH 103 or MTH 116) or designated score on Mathematics Placement test) and (CEM 252 or CEM 352) R: Approval of department.
Introduction to research concepts, strategies, methods and laboratory techniques in biomedical research. Laboratory safety, regulations, quality control and quality assurance. Online presentations and hands-on experience.
Effective Spring 2015 Effective Summer 2020
DEPARTMENT OF MICROBIOLOGY AND MOLECULAR GENETICS

MMG 999  Doctoral Dissertation Research
Fall of every year. Spring of every year. Summer of every year. 1 to 24 credits. A student may earn a maximum of 36 credits in all enrollments for this course. R: Open to graduate students in the Genetics Major or in the Microbiology and Molecular Genetics Major.
Doctoral dissertation research.
Request the use of the Pass-No Grade (P-N) system.
Effective Summer 2014 Effective Spring 2019

COLLEGE OF MUSIC

MUS 465  Music in Early Childhood
Fall of every year. 2(2-0) R: Not open to freshmen or sophomores and open to students in the Music Education Major.
Music learning activities and teaching strategies for children ages three to six. Music learning activities and teaching strategies for children ages birth to 5.
Effective Fall 2015 Effective Fall 2020

MUS 830  Research Methods and Materials in Music
Fall of every year. Spring of every year. 1 to 3 credits. 3(3-0) A student may earn a maximum of 3 credits in all enrollments for this course. R: Open to graduate students in the College of Music.
Organization, presentation, and documentation of research. Encyclopedias, indices, databases, and other aids.
Effective Fall 2007 Effective Fall 2021

MUS 883  Advanced Computer Music Projects
Fall of every year. Spring of every year. 1 to 4 credits. A student may earn a maximum of 12 credits in all enrollments for this course. R: MUS 882 or MUS 441 or approval of college P: MUS 441 or approval of college R: Open to graduate students in the College of Music or in the Computer Science Major.
Techniques and principles of composition and research with computers. Use of computer hardware and software.
Effective Fall 2007 Effective Fall 2021

SCHOOL OF PLANNING, DESIGN AND CONSTRUCTION

PDC 120  Planning and Design Digital Graphics
Introductory Digital Graphic Communications
Spring of every year. Summer of every year. 2(1-2) R: Open to undergraduate students in the School of Planning, Design and Construction.
Planning and design graphic software applications. Basic and fundamental communications to present digital renderings in various forms using digital software.
Effective Fall 2013 Effective Fall 2021

DEPARTMENT OF PLANT BIOLOGY

PLB 416L  Plant Physiology Laboratory
Spring of every year. 2(1-3) R: (CEM 143 or CEM 351 or CEM 251) and (BS 161 or LB 145 or BS 181H) and (PLB 415 or concurrently) and (BS 171 or BS 191H or approval of department) P: (CEM 143 or CEM 351 or CEM 251) and (BS 161 or LB 145 or BS 181H) and (PLB 415 or concurrently) and (BS 171 or BS 191H or LB 145 or approval of department)
Experimental methods and experiment design in plant physiology and molecular biology, with emphasis in photosynthesis, water relations, plant growth, plant development, genetics and gene regulation. Communication of scientific information in written and graphical format.
Effective Fall 2017 Effective Spring 2021
PLB 495  
**Botanical Garden Internship**  
Internship in Plant Biology  
Fall of every year. Spring of every year. Summer of every year. 2 to 8 credits. 1 to 4 credits. A student may earn a maximum of 8 credits in all enrollments for this course. A student may earn a maximum of 12 credits in all enrollments for this course. R: Approval of department. R: Approval of department; application required. 
Activities, functions and organization of botanical gardens. Principles of live plant curation. Supervised professional experience related to plant biology in industry, government, or non-profit settings. Request the use of ET-Extension to postpone grading. The work for the course must be completed and the final grade reported within 3 semesters after the end of the semester of enrollment. 
SA: BOT 495  
Effective Fall 2014 Effective Fall 2020

**DEPARTMENT OF POLITICAL SCIENCE**

PLS 481H  
**Undergraduate Research Seminar**  
Fall of every year. Spring of every year. 4(4-0) 1 to 6 credits. A student may earn a maximum of 6 credits in all enrollments for this course. P: PLS 200 or concurrently, or approval of department. P: PLS 200 or concurrently. R: PLS 201 or concurrently, R: Approval of department. 
Advanced research seminar for students in the political science program. 
SA: PLS 481H  
Effective Fall 2016 Effective Fall 2021

PLS 490H  
**Honors Internship**  
Guided Research  
Fall of every year. Spring of every year. Summer of every year. 3 to 6 credits. 1 to 6 credits. A student may earn a maximum of 6 credits in all enrollments for this course. P: (PLS 200 or concurrently) or (PLS 201 or concurrently), or approval of department. R: PLS 200 and PLS 201  
R: Approval of department. 
Supervised participation in research or teaching. Guided research on selected topics for students in the political science program. 
SA: PLS 490H  
Effective Fall 2014 Effective Fall 2021

**DEPARTMENT OF RELIGIOUS STUDIES**

REL 215  
**The Sound Of World Religions: Music, Chant, and Dance**  
Music and Religion  
Fall of even years. 3(3-0) 
Introduction to the lived experience of world religions through investigation of their sacred songs. 
Effective Spring 2015 Effective Fall 2021

**DEPARTMENT OF ROMANCE AND CLASSICAL STUDIES**

FRN 201  
**Second-Year French I**  
Fall of every year. Spring of every year. 4(4-0) P: (FRN 102 or FRN 150) or designated score on French Placement test P: (FRN 102) or designated score on French Placement test  
Intermediate-level review and development of aural comprehension, speaking, reading, and writing skills. Topics in the cultures of the French-speaking world. 
Effective Spring 2014 Effective Fall 2020
DEPARTMENT OF STATISTICS AND PROBABILITY

STT 380  Probability and Statistics for Data Science
Fall of every year. Spring of every year. 4(4-0) P: ((MTH 234 or concurrently) or (MTH 254H or concurrently)) or (LB 220 or concurrently) and (MTH 314 or concurrently) and (MTH 314 or concurrently) and STT 180
Fundamental concepts and methods in probability and statistics from a data science perspective.
Effective Fall 2019 Effective Fall 2020

DEPARTMENT OF SUPPLY CHAIN MANAGEMENT

SCM 372  Manufacturing Planning and Control
Manufacturing and Service Operations Management
Fall of every year. Spring of every year. Summer of every year. 3(3-0) P: SCM 303 and MKT 317
R: Open to juniors or seniors in the Supply Chain Management Major or in the Applied Engineering Sciences Major or approval of department.
Production planning, demand management, master scheduling, materials requirements, and capacity planning. Shop floor control, computer-integrated manufacturing, and just-in-time systems.
SA: MGT 402, MSC 402, MSC 372
Effective Spring 2018 Effective Fall 2021

SCM 462  End-to-End Supply Chain Management Simulation
End-to-End Supply Chain Analytics Using Simulation
Fall of every year. Spring of every year. 1(1-0) R: Open to seniors in the Department of Supply Chain Management or approval of department.
Simulation exercise and competition in the design and operation of global supply chains
Effective Fall 2017 Effective Fall 2021

SCM 463  Supply Chain Enterprise Resource Planning Applications
Supply Chain Enterprise Resource Planning Technology Applications
On Demand. 1 to 3 credits. R: Open to seniors in the Department of Supply Chain Management or approval of department.
Workshop with hands-on experience in enterprise resource planning applications.
Effective Spring 2019 Effective Fall 2021

SCM 470  Supply Chain Application and Policy (W)
Integrated Supply Chain Management Capstone (W)
Fall of every year. Spring of every year. Summer of every year. 3(3-0) P: (SCM 371 and SCM 372 and SCM 373) and completion of Tier I writing requirement R: Open to seniors in the Supply Chain Management Major.
Analysis and problem solving of supply chain management cases, specifically purchasing, operations, and logistics problems.
SA: MSC 470
Effective Fall 2019 Effective Fall 2021

SCM 472  Supply Chain Industry Applications
Experiential Learning with Industry Problems in Supply Chain (W)
Spring of every year. 3(3-0) P: (SCM 371 and SCM 372 and SCM 373) and completion of Tier I writing requirement R: Open to seniors in the Department of Supply Chain Management. Not open to students with credit in SCM 470.
Integrated analysis and problem solving of supply chain management applications in collaboration with Engineering. Purchasing, manufacturing, logistics, and transportation as an integrated supply chain.
Effective Fall 2017 Effective Fall 2021
SCM 479  
**Supply Chain Cost Management**  
Supply Chain Cost Analysis and Application  
Fall of every year. Spring of every year. 2(2-0) P: SCM 371 R: Open to juniors or seniors in the Supply Chain Management Major.  
Pricing and cost management basics, cost models, parametric cost modeling, process mapping for cost management, total cost of ownership, target costing for purchased materials, value analysis and value engineering, using cost analysis to support purchase negotiations, current trends in cost management.  
SA: MSC 479  
**Effective Fall 2015 Effective Fall 2021**
