

COLLEGE OF NATURAL SCIENCE

Proposed Guidelines for Review of Request for Alternate Track Option in Natural Science

A program requesting alternate track option in Natural Science must satisfy at the minimum one of the options listed below:

Option I:

- a. One of the following courses in Mathematics or Statistics:

MTH 120, MTH 124, MTH 132, MTH 152H, STT 421 or the LBS equivalent.
- b. One course each in Biological and Physical sciences with at least one laboratory experience totaling seven or more credits.

If the Mathematics requirement of the program is the University Mathematics requirement, then

Option II:

- a. One course each in Biological and Physical sciences with at least one laboratory experience totaling seven or more credits.
- b. One additional course in Biological or Physical science of three or more credits for a total of three courses. At least two of these courses must be integrated in the sense that the first is a prerequisite to the second or that they form a course sequence.
